

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2023

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 000-51371

LINCOLN EDUCATIONAL SERVICES CORPORATION

(Exact name of registrant as specified in its charter)

New Jersey

(State or other jurisdiction of incorporation or organization)

57-1150621

(I.R.S. Employer Identification No.)

14 Sylvan Way, Suite A
Parsippany, NJ

(Address of principal executive offices)

07054

(Zip Code)

(973) 736-9340

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, no par value per share	LINC	The NASDAQ Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 7, 2023, there were 31,359,110 shares of the registrant's common stock outstanding.

INDEX TO FORM 10-Q

Forward-Looking Statements

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein contain “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, which include information relating to future events, future financial performance, strategies, expectations, competitive environment, regulation and availability of resources. These forward-looking statements include, without limitation, statements regarding proposed new programs, expectations that regulatory developments or other matters will or will not have a material adverse effect on our consolidated financial position, results of operations or liquidity, statements concerning projections, predictions, expectations, estimates or forecasts as to our business, financial and operating results and future economic performance; and statements of management’s goals and objectives and other similar expressions concerning matters that are not historical facts. Words such as “may,” “should,” “could,” “would,” “predicts,” “potential,” “continue,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates,” and similar expressions, as well as statements in future tense, identify forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the time those statements are made and/or management’s good faith belief as of that time with respect to future events and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to the following:

- our failure to comply with the extensive existing regulatory framework applicable to our industry or our failure to obtain timely regulatory approvals in connection with a change of control of our company or acquisitions;
- the promulgation of new regulations in our industry as to which we may find compliance challenging;
- our success in updating and expanding the content of existing programs and developing new programs in a cost-effective manner or on a timely basis;
- our ability to implement our strategic plan;
- risks associated with changes in applicable federal laws and regulations including pending rulemaking by the U.S. Department of Education;
- uncertainties regarding our ability to comply with federal laws and regulations regarding the 90/10 Rule and cohort January 1 rates;
- risks associated with maintaining accreditation;
- risks associated with opening new campuses and closing existing campuses;
- risks associated with integration of acquired schools;
- industry competition;
- the effect of public health outbreaks, epidemics and pandemics including, without limitation, COVID-19 conditions and trends in our industry;
- general economic conditions; and
- risks related to other factors discussed in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2022.

Forward-looking statements speak only as of the date the statements are made. Except as required under the federal securities laws and rules and regulations of the United States Securities and Exchange Commission, we undertake no obligation to update or revise forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information. We caution you not to unduly rely on the forward-looking statements when evaluating the information presented herein.

LINCOLN EDUCATIONAL SERVICES CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
THREE AND SIX MONTHS ENDED JUNE 30, 2023 AND 2022
(In thousands, except share and per share amounts and unless otherwise stated)
(Unaudited)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Business Activities - Lincoln Educational Services Corporation and its subsidiaries (collectively, the “Company”, “we”, “our”, and “us”, as applicable) provide diversified career-oriented post-secondary education to recent high school graduates and working adults. The Company, which currently operates 22 campuses in 14 states, offers programs in skilled trades (which include HVAC, welding, computerized numerical control and electrical and electronic systems technology, among other programs), automotive technology, healthcare services (which include nursing, dental assistant and medical administrative assistant, among other programs), hospitality services (which include culinary, therapeutic massage, cosmetology and aesthetics) and information technology. The schools operate under Lincoln Technical Institute, Lincoln College of Technology, Lincoln Culinary Institute, Euphoria Institute of Beauty Arts and Sciences and associated brand names. Most of the campuses serve major metropolitan markets and each typically offers courses in multiple areas of study. Five of the campuses are destination schools, which attract students from across the United States and, in some cases, from abroad. The Company’s other campuses primarily attract students from their local communities and surrounding areas. All of the campuses are nationally accredited and are eligible to participate in federal financial aid programs by the U.S. Department of Education (“DOE”) and applicable state education agencies and accrediting commissions which allow students to apply for and access federal student loans as well as other forms of financial aid.

Basis of Presentation – The accompanying unaudited Condensed Consolidated Financial Statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) and in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial statements. Certain information and footnote disclosures normally included in annual financial statements have been omitted or condensed pursuant to such regulations. These financial statements, which should be read in conjunction with the December 31, 2022 audited consolidated financial statements and notes thereto and related disclosures of the Company included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2022 (“Form 10-K”), reflect all adjustments, consisting of normal recurring adjustments necessary to present fairly the consolidated financial position, results of operations and cash flows for such periods. The results of operations for the six months ended June 30, 2023 are not necessarily indicative of the results that may be expected for the full fiscal year ending December 31, 2023.

As of January 1, 2023, the Company’s business is now organized into two reportable business segments: (a) Campus Operations, and (b) Transitional. Based on trends in student demand and program expansion, there have been more cross-offerings of programs among the various campuses. Given this change, the Company has revised the way it manages the business, evaluates performance, and allocates resources, resulting in an updated segment structure. The Campus Operations segment includes campuses that are continuing in operation and contribute to the Company’s core operations and performance. The Transitional segment refers to businesses that are marked for closure and are currently being taught-out. As of June 30, 2023, the only campus classified in the Transitional segment is the Somerville, Massachusetts campus, which is no longer enrolling new students and will be fully taught-out and closed by December 31, 2023.

We evaluate performance based on operating results. Adjustments to reconcile segment results to consolidated results are included in the caption “Corporate,” which primarily includes unallocated corporate activity.

The unaudited Condensed Consolidated Financial Statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated.

Use of Estimates in the Preparation of Financial Statements – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. On an ongoing basis, the Company evaluates the estimates and assumptions, including those used to determine the incremental borrowing rate to calculate lease liabilities and right-of-use (“ROU”) assets, lease term to calculate lease cost, revenue recognition, bad debts, impairments, useful lives of fixed assets, income taxes, benefit plans and certain accruals. Actual results could differ from those estimates.

New Accounting Pronouncements – In October 2021, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2021-08, “Business Combinations (Topic 805), Accounting for Contract Assets and Contract Liabilities from Contracts with Customers”. This amendment introduced the requirement for an acquirer to recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with the requirements of FASB Accounting Standards Codification (“ASC”) Topic 606, “Revenue from Contracts with Customers”, rather than at fair value. For public business entities, the amendments in ASU 2021-08 are effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The Company has evaluated the ASU and has determined that there is no impact on its Condensed Consolidated Financial Statements and related disclosures.

In August 2020, the FASB issued ASU 2020-06, “Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity”. This ASU simplified the accounting for certain financial instruments with characteristics of liabilities and equity, including convertible instruments and contracts on an entity’s own equity. The ASU removed separation models for convertible debt with a cash conversion feature and convertible instruments with a beneficial conversion feature; hence, most of the instruments will be accounted for as a single model (either debt or equity). The ASU also states that entities must apply the if-converted method to all convertible instruments for calculation of diluted EPS and the treasury stock method is no longer available. An entity can use either a full or modified retrospective approach to adopt the ASU’s guidance. ASU No. 2020-06 is effective for the Company as a smaller reporting company for fiscal years beginning after December 15, 2023 and for interim periods within those fiscal years. For convertible instruments that include a down-round feature, entities may early adopt the amendments that apply to the down-round features if they have not yet adopted the amendments in ASU 2017-11. The Company has evaluated the ASU and has determined that there is no impact on its Condensed Consolidated Financial Statements and related disclosures as the Company currently has no financial instruments that are in the scope of this ASU.

In June 2016, the FASB issued ASU 2016-13, “Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments” and subsequently issued additional guidance that modified ASU 2016-13. The ASU and the subsequent modifications were identified as ASC Topic 326. The standard requires an entity to change its accounting approach in determining impairment of certain financial instruments, including trade receivables, from an “incurred loss” methodology to a “current expected credit loss” methodology (the “CECL methodology”). The CECL methodology utilizes a lifetime “expected credit loss” measurement objective for the recognition of credit losses on financial assets measured at amortized cost at the time the financial asset is originated or acquired. The allowance is adjusted each period for changes in expected lifetime credit losses. The CECL methodology represents a significant change from prior U.S. GAAP, which generally required that a loss be incurred before it was recognized. Further, the FASB issued ASU No. 2019-04, ASU No. 2019-05, ASU No. 2019-11 and ASU No. 2022-02 to provide additional guidance on the credit losses standard. In November 2019, FASB issued ASU No. 2019-10, “Financial Instruments – Credit Losses (Topic 326), Derivatives and Hedging (Topic 815), and Leases (Topic 842)”. This ASU deferred the effective date of ASU 2016-13 for public companies that are considered smaller reporting companies as defined by the SEC to fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Additionally, in February and March 2020, the FASB issued ASU 2020-02, “Financial Instruments—Credit Losses (Topic 326) and Leases (Topic 842): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 119 and Update to SEC Section on Effective Date Related to Accounting Standards Update No. 2016-02, Leases (Topic 842)” ASU 2020-02 added a SEC paragraph pursuant to the issuance of SEC Staff Accounting Bulletin No. 119 on loan losses to FASB Codification Topic 326 and also updated the SEC section of the codification for the change in the effective date of Topic 842. As of the January 1, 2023 date of adoption, based on forecasts of macroeconomic conditions and exposures at that time, the aggregate impact to the Company resulted in an opening balance sheet adjustment increasing the allowance for credit losses related to the Company’s accounts receivables of approximately \$10.8 million, a decrease in retained earnings of \$7.9 million, after-tax and a deferred tax asset increase of \$2.9 million.

Income Taxes – The Company accounts for income taxes in accordance with ASC Topic 740, “Income Taxes” (“ASC 740”). This statement requires an asset and a liability approach for measuring deferred taxes based on temporary differences between the financial statement and tax bases of assets and liabilities existing at each balance sheet date using enacted tax rates for years in which taxes are expected to be paid or recovered.

In accordance with ASC 740, the Company assesses our deferred tax asset to determine whether all or any portion of the asset is more likely than not unrealizable. A valuation allowance is required to be established or maintained when, based on currently available information, it is more likely than not that all or a portion of a deferred tax asset will not be realized. In accordance with ASC 740, our assessment considers whether there has been sufficient income in recent years and whether sufficient income is expected in future years in order to utilize the deferred tax asset. In evaluating the realizability of deferred income tax assets, the Company considers, among other things, historical levels of income, expected future income, the expected timing of the reversals of existing temporary reporting differences, and the expected impact of tax planning strategies that may be implemented to prevent the potential loss of future income tax benefits. Significant judgment is required in determining the future tax consequences of events that have been recognized in our consolidated financial statements and/or tax returns. Differences between anticipated and actual outcomes of these future tax consequences could have a material impact on the Company’s consolidated financial position or results of operations. Changes in, among other things, income tax legislation, statutory income tax rates or future income levels could materially impact the Company’s valuation of income tax assets and liabilities and could cause our income tax provision to vary significantly among financial reporting periods.

On August 16, 2022, the Inflation Reduction Act was enacted and signed into law. The Inflation Reduction Act is a budget reconciliation package that includes significant changes relating to tax, climate change, energy and health care. The income tax provision of the act includes, among other items, a corporate alternative minimum tax of 15%, an excise tax of 1% on corporate stock buybacks, energy-related tax credits and additional IRS funding. The Company does not expect the tax provisions of the Inflation Reduction Act to have a material impact to our Condensed Consolidated Financial Statements.

We recognize accrued interest and penalties related to unrecognized tax benefits in income tax expense. During the six months ended June 30, 2023 and 2022, we did not record any interest and penalties expense associated with uncertain tax positions, as we do not have any uncertain tax positions.

2. NET INCOME (LOSS) PER COMMON SHARE

Basic and diluted earnings (loss) per share (“EPS”) are determined in accordance with ASC Topic 260, “*Earnings per Share*”, which specifies the computation, presentation and disclosure requirements for EPS. Basic EPS excludes all dilutive common stock equivalents. It is based upon the weighted average number of common shares outstanding during the period. Diluted EPS, as calculated using the treasury stock method, reflects the potential dilution that would occur if our dilutive outstanding stock options and stock awards were issued.

For the three and six months ended June 30, 2022, the Company presented its basic and diluted income per common share using the two-class method, which requires all outstanding Series A Preferred Stock (“Series A Preferred Stock”) and unvested shares of Restricted Stock that contain rights to non-forfeitable dividends and therefore participate in undistributed income with common shareholders to be included in computing income per common share. Under the two-class method, net income is reduced by the amount of dividends declared in the period for each class of Common Stock and participating security. The remaining undistributed income is then allocated to Common Stock and participating securities based on their respective rights to receive dividends. Series A Preferred Stock and shares of unvested Restricted Stock contain non-forfeitable rights to dividends on an if-converted basis and on the same basis as shares of the Company’s Common Stock, respectively, and are considered participating securities. The Series A Preferred Stock and unvested Restricted Stock are not included in the computation of basic income per common share in periods in which we have a net loss, as the Series A Preferred Stock and unvested Restricted Stock are not contractually obligated to share in our net losses. However, the cumulative dividends on Series A Preferred Stock for the period decreases the income or increases the net loss allocated to common shareholders unless the dividend is paid in the period. Basic income per common share has been computed by dividing net income allocated to common shareholders by the weighted-average number of common shares outstanding.

On November 30, 2022, the Company exercised in full its right of mandatory conversion of the Company’s Series A Preferred Stock. In connection with the conversion, each share of Series A Preferred Stock was cancelled and converted into 423,729 shares of the Company’s Common Stock, no par value per share (the “Common Stock”). No shares of Series A Preferred Stock remain outstanding and all rights of the holders to receive future dividends have been terminated. As a result of the conversion, the aggregate 12,700 shares of Series A Preferred Stock outstanding were converted into 5,381,356 shares of Common Stock. As of June 30, 2023, the Company still maintains Restricted Stock, but these shares do not participate in the disbursement of dividends.

The following is a reconciliation of the numerator and denominator of the net income (loss) per share computations for the three and six months ended June 30, 2023 and 2022:

<i>(in thousands, except share data)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Numerator:				
Net income	\$ 17,250	\$ 259	\$ 17,141	\$ 532
Less: preferred stock dividend	-	(304)	-	(608)
Net income (loss) allocated to common stockholders	<u>\$ 17,250</u>	<u>\$ (45)</u>	<u>\$ 17,141</u>	<u>\$ (76)</u>
Basic income (loss) per share:				
Denominator:				
Weighted average common shares outstanding	30,140,221	25,962,617	30,090,113	25,842,456
Basic income (loss) per share	<u>\$ 0.57</u>	<u>\$ (0.00)</u>	<u>\$ 0.57</u>	<u>\$ (0.00)</u>
Diluted income (loss) per share:				
Denominator:				
Weighted average number of:				
Common shares outstanding	30,397,308	25,962,617	30,333,495	25,842,456
Dilutive shares outstanding	<u>30,397,308</u>	<u>25,962,617</u>	<u>30,333,495</u>	<u>25,842,456</u>
Diluted income (loss) per share	<u>\$ 0.57</u>	<u>\$ (0.00)</u>	<u>\$ 0.57</u>	<u>\$ (0.00)</u>

The following table summarizes the potential weighted average shares of Common Stock that were excluded from the determination of our diluted shares outstanding as they were anti-dilutive:

<i>(in thousands, except share data)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Series A Preferred Stock	-	5,381,356	-	5,381,356
Unvested restricted stock	-	1,547,124	-	1,599,891
	<u>-</u>	<u>6,928,480</u>	<u>-</u>	<u>6,981,247</u>

3. REVENUE RECOGNITION

Substantially all of our revenues are considered to be revenues from our contracts with students. The related accounts receivable balances are recorded in our Condensed Consolidated Balance Sheets as student accounts receivable. We do not have significant revenue recognized from performance obligations that were satisfied in prior periods, and we do not have any transaction price allocated to unsatisfied performance obligations other than in our unearned tuition. We record revenue for students who withdraw from our schools only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. Unearned tuition represents contract liabilities primarily related to our tuition revenue. We have elected not to provide disclosure about transaction prices allocated to unsatisfied performance obligations if original contract durations are less than one year, or if we have the right to consideration from a student in an amount that corresponds directly with the value provided to the student for performance obligations completed to date in accordance with ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." We have assessed the costs incurred to obtain a contract with a student and determined them to be immaterial.

Unearned tuition in the amount of \$22.9 million and \$24.2 million is recorded as current liabilities in the accompanying Condensed Consolidated Balance Sheets as of June 30, 2023 and December 31, 2022, respectively. The change in this contract liability balance during the six-month period ended June 30, 2023 is the result of payments received in advance of satisfying performance obligations, offset by revenue recognized during that period. Revenue recognized for the six-month period ended June 30, 2023 that was included in the contract liability balance at the beginning of the year was \$22.6 million.

The following table depicts the timing of revenue recognition:

	Three months ended June 30, 2023			Six months ended June 30, 2023		
	Campus Operations	Transitional	Consolidated	Campus Operations	Transitional	Consolidated
Timing of Revenue Recognition						
Services transferred at a point in time	\$ 5,895	\$ 3	\$ 5,898	\$ 10,595	\$ 12	\$ 10,607
Services transferred over time	82,318	430	82,748	163,970	1,352	165,322
Total revenues	<u>\$ 88,213</u>	<u>\$ 433</u>	<u>\$ 88,646</u>	<u>\$ 174,565</u>	<u>\$ 1,364</u>	<u>\$ 175,929</u>

	Three months ended June 30, 2022			Six months ended June 30, 2022		
	Campus Operations	Transitional	Consolidated	Campus Operations	Transitional	Consolidated
Timing of Revenue Recognition						
Services transferred at a point in time	\$ 4,886	\$ 87	\$ 4,973	\$ 9,598	\$ 165	\$ 9,763
Services transferred over time	75,463	1,706	77,169	151,532	3,402	154,934
Total revenues	<u>\$ 80,349</u>	<u>\$ 1,793</u>	<u>\$ 82,142</u>	<u>\$ 161,130</u>	<u>\$ 3,567</u>	<u>\$ 164,697</u>

4. LEASES

The Company determines if an arrangement is a lease at its inception. The Company considers any contract where there is an identified asset as to which the Company has the right to control its use in determining whether the contract contains a lease. An operating lease ROU asset represents the Company's right to use an underlying asset for the lease term and lease liabilities represent its obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are to be recognized at the commencement date based on the present value of lease payments over the lease term. As all of the Company's operating leases do not provide an implicit rate, the Company uses an incremental borrowing rate based on the information available on the commencement date in determining the present value of lease payments. We estimate the incremental borrowing rate based on a yield curve analysis, utilizing the interest rate derived from the fair value analysis of our credit facility and adjusting it for factors that appropriately reflect the profile of secured borrowing over the expected term of the lease. The operating lease ROU assets include any lease payments made prior to the rent commencement date and exclude lease incentives. Our leases have remaining terms ranging from less than one year to approximately 19 years. Lease terms may include options to extend the term used in determining the lease obligation when it is reasonably certain that the Company will exercise that option. Expenses for lease payments are recognized on a straight-line basis over the lease term for operating leases.

On June 30, 2022, the Company executed a lease for approximately 55,000 square feet of space to serve as the Company's new campus, in Atlanta, Georgia. The lease term commenced in August 2022, with total payments due over the term, on an undiscounted basis of \$12.2 million over the 12-year initial term. The lease contains two five-year renewal options that may be exercised by the Company at the end of the initial lease term. The Company had no involvement in the construction or design of the facilities on the property and was not deemed to be in control of the asset prior to the lease commencement date. During the six months ended June 30, 2023, the Company incurred approximately \$5.3 million in capital expenditures (mostly relating to architectural fees and construction, which began in February 2023) and approximately \$0.4 million in rent expenses.

Operating lease costs for the three months ended June 30, 2023 and 2022 were \$4.9 million and \$4.7 million, respectively, and \$9.8 million and \$9.3 million for the six months ended June 30, 2023 and 2022, respectively. Variable lease costs were less than \$0.1 million for the three months ended June 30, 2023 and 2022, respectively, and \$0.1 million and less than \$0.1 million for the six months ended June 30, 2023 and 2022, respectively. The net change in ROU asset and operating lease liability is included in other assets in the Condensed Consolidated Cash Flows for the six months ended June 30, 2023 and 2022.

Supplemental cash flow information and non-cash activity related to our operating leases are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Operating cash flow information:				
Cash paid for amounts included in the measurement of operating lease liabilities	\$ 4,278	\$ 4,665	\$ 8,196	\$ 9,320
Non-cash activity:				
Lease liabilities arising from obtaining right-of-use assets	\$ -	\$ 73	\$ 2,142	\$ 6,717

As of June 30, 2023, the Company entered into one new lease and one lease modification that resulted in a noncash re-measurement of the related ROU asset and operating lease liability of \$2.1 million.

Weighted-average remaining lease term and discount rate for our operating leases are as follows:

	As of June 30,	
	2023	2022
Weighted-average remaining lease term	11.13 years	11.35 years
Weighted-average discount rate	6.92%	7.36%

Maturities of lease liabilities by fiscal year for our operating leases as of June 30, 2023 are as follows:

Year ending December 31,	
2023 (excluding the six months ended June 30, 2023)	\$ 7,897
2024	17,373
2025	15,702
2026	13,334
2027	10,053
2028	9,959
Thereafter	69,824
Total lease payments	144,142
Less: imputed interest	(46,081)
Present value of lease liabilities	\$ 98,061

5. GOODWILL AND LONG-LIVED ASSETS

The Company reviews the carrying value of its long-lived assets and identifiable intangibles annually, or more frequently if necessary for possible impairment whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable. If the Company determines that an asset's carrying value is impaired, it will record a write-down of the carrying value of the asset and charge the impairment as an operating expense in the period in which the determination is made. For other long-lived assets, including ROU lease assets, the Company evaluates assets for recoverability when there is an indication of potential impairment. If the undiscounted cash flows from a group of assets being evaluated is less than the carrying value of that group of assets, the fair value of the asset group is determined and the carrying value of the asset group is written down to fair value.

When we perform the quantitative impairment test for long-lived assets, we examine estimated future cash flows using Level 3 inputs. These cash flows are evaluated by using weighted probability techniques as well as comparisons of past performance against projections. Assets may also be evaluated by identifying independent market values.

On June 8, 2023, the Company consummated the sale of its Nashville, Tennessee property (see Part I, Item 1. "Notes to Condensed Consolidated Financial Statements", Note 13 - Property Sale Agreement). The result of the sale created a change in the trajectory of the fair value of the Nashville, Tennessee operations and as such, the Company recorded a pre-tax non-cash impairment charge of \$3.8 million relating to goodwill and an additional \$0.4 million impairment relating to long-lived assets. Both charges related to the Nashville, Tennessee property. As of June 30, 2022, there were no impairments of goodwill or long-lived assets.

The carrying amount of goodwill at June 30, 2023 and 2022 is as follows:

	Gross Goodwill Balance	Accumulated Impairment Losses	Net Goodwill Balance
Balance as of January 1, 2023	\$ 117,176	\$ (102,640)	\$ 14,536
Adjustments	-	(3,794)	(3,794)
Balance as of June 30, 2023	<u>\$ 117,176</u>	<u>\$ (106,434)</u>	<u>\$ 10,742</u>
	Gross Goodwill Balance	Accumulated Impairment Losses	Net Goodwill Balance
Balance as of January 1, 2022	\$ 117,176	\$ (102,640)	\$ 14,536
Adjustments	-	-	-
Balance as of June 30, 2022	<u>\$ 117,176</u>	<u>\$ (102,640)</u>	<u>\$ 14,536</u>

6. LONG-TERM DEBT

Credit Facility

On November 14, 2019, the Company entered into a senior secured credit agreement (the "Credit Agreement") with its lender, Sterling National Bank (the "Lender"), providing for borrowing in the aggregate principal amount of up to \$60 million (the "Credit Facility"). Initially, the Credit Facility was comprised of four facilities: (1) a \$20 million senior secured term loan maturing on December 1, 2024 (the "Term Loan"), with monthly interest and principal payments based on a 120-month amortization, with the outstanding balance due on the maturity date; (2) a \$10 million senior secured delayed draw term loan maturing on December 1, 2024 (the "Delayed Draw Term Loan"), with monthly interest payments for the first 18 months and thereafter monthly payments of interest and principal based on a 120-month amortization and all balances due on the maturity date; (3) a \$15 million senior secured committed revolving line of credit providing a sublimit of up to \$10 million for standby letters of credit maturing on November 13, 2022 (the "Revolving Loan"), with monthly payments of interest only; and (4) a \$15 million senior secured non-restoring line of credit maturing on January 31, 2021 (the "Line of Credit Loan"). The Credit Facility was secured by a first priority lien in favor of the Lender on substantially all of the personal property owned by the Company as well as a pledge of the stock and other rights in the Company's subsidiaries and mortgages on parcels of real property owned by the Company. The Credit Agreement was amended on various occasions.

On November 4, 2022, the Company agreed with its Lender to terminate the Credit Agreement and the remaining Revolving Loan. The Lender agreed to allow the Company's existing letters of credit to remain outstanding, provided that they are cash collateralized. As of June 30, 2023, the letters of credit, in the aggregate outstanding principal amount of \$4.0 million, remained outstanding, were cash collateralized, and were classified as restricted cash on the Condensed Consolidated Balance Sheet. As of June 30, 2023, the Company did not have a credit facility and did not have any debt outstanding. The Company is continuing to consider potential lenders for its future credit needs.

7. STOCKHOLDERS' EQUITY

Common Stock

Holders of our Common Stock are entitled to receive dividends when and as declared by our Board of Directors and have the right to one vote per share on all matters requiring shareholder approval. The Company has not declared or paid any cash dividends on our Common Stock since the Company's Board of Directors discontinued our quarterly cash dividend program in February 2015. The Company currently has no intention to pay cash dividends to holders of Common Stock in the foreseeable future.

Preferred Stock

On November 30, 2022, the Company exercised in full its right of mandatory conversion of the Company's Series A Preferred Stock. In connection with the conversion, each share of Series A Preferred Stock was cancelled and converted into the right to receive 423,729 shares of the Company's Common Stock, no par value per share. No shares of the Series A Preferred Stock remain outstanding and all rights of the holders to receive future dividends have been terminated. As a result of the conversion, the aggregate 12,700 shares of Series A Preferred Stock outstanding were converted into 5,381,356 shares of Common Stock.

Dividends

Pursuant to the terms of the Series A Preferred Stock, dividends on the Series A Preferred Stock ("Series A Dividends"), at the initial annual rate of 9.6%, were paid, in arrears, from the date of issuance quarterly on each December 31, March 31, June 30 and September 30, with September 30, 2020 being the first dividend payment date. As of December 31, 2022, we had paid \$1.1 million in cash dividends on the outstanding shares of Series A Preferred Stock. With the exercise of the mandatory conversion of the Company's Series A Preferred Stock as noted above, there will not be any further dividend payments related to the Series A Preferred Stock. Dividends paid in the prior year are included in the Condensed Consolidated Balance Sheets within additional paid-in-capital when the Company maintains an accumulated deficit.

Treasury Stock

On May 24, 2022, the Board of Directors authorized the cancellation of 5,910,541 shares of Treasury Stock, which reduced Treasury Stock and Common Stock by \$82.9 million.

Restricted Stock

The Company currently has three stock incentive plans: (1) a Long-Term Incentive Plan (the "LTIP"); (2) a Non-Employee Directors Restricted Stock Plan (the "Non-Employee Directors Plan"); and (3) the Lincoln Educational Services Corporation 2020 Incentive Compensation Plan (the "2020 Plan").

2020 Plan

On March 26, 2020, the Board of Directors adopted the 2020 Plan to provide an incentive to certain directors, officers, employees and consultants of the Company to align their interests in the Company's success with those of its shareholders through the grant of equity-based awards. On June 16, 2020, the shareholders of the Company approved the 2020 Plan. The 2020 Plan is administered by the Compensation Committee of the Board of Directors, or such other qualified committee appointed by the Board of Directors, which will, among other duties, have the full power and authority to take all actions and make all determinations required or provided for under the 2020 Plan. Pursuant to the 2020 Plan, the Company may grant options, share appreciation rights, restricted shares, restricted share units, incentive stock options and nonqualified stock options. Under the 2020 Plan, employees may surrender shares as payment of applicable income tax withholding on the vested Restricted Stock. The 2020 Plan has a duration of 10 years. On February 23, 2023, the Board of Directors approved, subject to shareholder approval, the amendment of the 2020 Plan to increase the aggregate number of shares available under the 2020 Plan from 2,000,000 shares to 4,000,000 shares. The amendment was approved and adopted by the shareholders at the Annual Meeting of Shareholders held on May 5, 2023.

LTIP

Under the LTIP, certain employees have received awards of restricted shares of Common Stock based on service and performance. The number of shares granted to each employee is based on the amount of the award and the fair market value of a share of Common Stock on the date of the grant. The 2020 Plan makes it clear that there will be no new grants under the LTIP as of June 16, 2020, the date of shareholder approval of the 2020 Plan. As no shares remain available under the LTIP, there can be no additional grants under the LTIP. Grants under the LTIP remain in effect according to their terms. Therefore, those grants remaining in effect under the LTIP are subject to the particular award agreement relating thereto and to the LTIP to the extent that the LTIP provides rules relating to those grants. The LTIP remains in effect only to that extent.

Non-Employee Directors Plan

Pursuant to the Non-Employee Directors Plan, each non-employee director of the Company receives an annual award of restricted shares of Common Stock on the date of the Company's Annual Meeting of Shareholders. The number of shares granted to each non-employee director is based on the fair market value of a share of Common Stock on that date. The restricted shares vest on the first anniversary of the grant date. There is no restriction on the right to vote or the right to receive dividends with respect to any of such restricted shares.

For the six months ended June 30, 2023 and 2022, the Company completed a net share settlement for 297,380 and 268,654 restricted shares, respectively, on behalf of certain employees that participate in the LTIP upon the vesting of the restricted shares pursuant to the terms of the LTIP. The net share settlement was in connection with income taxes incurred on restricted shares that vested and were transferred to the employees during 2023 and/or 2022, creating taxable income for the employees. At the employees' request, the Company has paid these taxes on behalf of the employees in exchange for the employees returning an equivalent value of restricted shares to the Company. These transactions resulted in a decrease of \$1.8 million and \$2.0 million for each of the six months ended June 30, 2023 and 2022, respectively, to equity on the Condensed Consolidated Balance Sheets as the cash payment of the taxes effectively was a repurchase of the restricted shares granted in previous years.

The following is a summary of transactions pertaining to Restricted Stock:

	<u>Shares</u>	<u>Weighted Average Grant Date Fair Value Per Share</u>
Nonvested Restricted Stock outstanding at December 31, 2022	1,548,266	\$ 5.18
Granted	751,240	6.10
Canceled	(37,941)	6.15
Vested	(862,890)	4.01
Nonvested Restricted Stock outstanding at June 30, 2023	<u>1,398,675</u>	6.33

The Restricted Stock expense for the three months ended June 30, 2023 and 2022 was \$2.6 million and \$0.5 million, respectively. The Restricted Stock expense for the six months ended June 30, 2023 and 2022 was \$3.4 million and \$1.7 million, respectively. The unrecognized Restricted Stock expense as of June 30, 2023 and December 31, 2022 was \$6.8 million and \$7.9 million, respectively. As of June 30, 2023, the outstanding shares of Restricted Stock had an aggregate intrinsic value of \$9.4 million.

Share Repurchase Plan

On May 24, 2022, the Company announced that its Board of Directors had authorized a share repurchase program of up to \$30.0 million of the Company's outstanding Common Stock. The repurchase program was authorized for 12 months. Pursuant to the program, purchases may be made, from time to time, in open-market transactions at prevailing market prices, in privately negotiated transactions or by other means as determined by the Company's management and in accordance with applicable federal securities laws. The timing of purchases and the number of shares repurchased under the program will depend on a variety of factors including price, trading volume, corporate and regulatory requirements and market conditions. The Company retains the right to limit, terminate or extend the share repurchase program at any time without prior notice.

On February 27, 2023, the Board of Directors extended the share repurchase program for an additional 12 months and authorized the repurchase of an additional \$10 million of the Company's Common Stock, for an aggregate of up to \$30.6 million in additional repurchases.

During the three months ended June 30, 2023, the Company repurchased 61,034 shares of its Common Stock at an aggregate cost of approximately \$0.3 million. During the six months ended June 30, 2023, the Company repurchased 165,064 shares of its Common Stock at an aggregate cost of approximately \$0.9 million. These shares were subsequently canceled and recorded as a reduction of Common Stock.

8. INCOME TAXES

The provision for income taxes was \$6.8 million, or 28.2% of pre-tax income for the three months ended June 30, 2023 compared to a provision for income taxes of \$0.1 million, or 28.3% of pre-tax income in the prior year comparable period. The provision for income taxes was \$6.2 million, or 26.6% of pre-tax income for the six months ended June 30, 2023 compared to a benefit for income taxes of \$0.5 million in the comparable prior year period. The provision for the three months ended June 30, 2023 and 2022 was primarily due to a pre-tax income position driven by gains of \$30.9 million in the current year resulting from the sale of our Nashville, Tennessee campus and a \$0.2 million gain in the prior year resulting from the sale of our Suffield, Connecticut property. The provision for income taxes for the six months ended June 30, 2023 was primarily driven by a pre-tax income position, resulting from a gain of \$30.9 million in the current year. The benefit for the six months ended June 30, 2022 was due primarily to a pre-tax book loss and a discrete item relating to Restricted Stock vesting. The effective tax rate for the three and six months ended June 30, 2023 and 2022 was 28.0% and 28.2%, respectively.

9. COMMITMENTS AND CONTINGENCIES

On November 16, 2022, the U.S. District Court for the Northern District of California granted final approval of a settlement agreement in the lawsuit *Sweet v. Cardona*, No. 3:19-cv-3674 (N.D. Cal.). Under the settlement agreement, the DOE agreed to discharge loans and refund all prior loan payments to covered student borrowers who have asserted a Borrower Defense to Repayment to the DOE and whose borrower defense claims have not yet been granted or denied on the merits, which includes former students at our institutions as well as at a long list of other institutions. Subsequently, we and two other intervening school companies filed notices of appeal and asked the District Court to stay the settlement from taking effect until the appeals were decided. Plaintiffs and the DOE thereafter filed oppositions to our stay request and, after a hearing, the District Court denied our stay request, but extended the temporary stay of loan discharges and refunds associated with the three school companies for seven days to allow us to file a motion for a stay with the U.S. Court of Appeals for the Ninth Circuit. On February 27, 2023, we and the two other school companies that appealed filed a joint motion for a stay with the Ninth Circuit. On March 29, 2023, the Ninth Circuit denied our motion to stay the judgment pending appeal. On April 4, 2023, we and the two other school companies filed an emergency application with the Supreme Court of the United States to stay the District Court's judgment. On April 13, 2023, the Supreme Court denied our petition.

Despite the denials of our stay requests, we have filed a joint appeal with the Ninth Circuit to overturn the District Court's judgment approving the final settlement and expect that oral argument will be scheduled for late 2023 or early 2024. However, as previously reported, as a result of the denials of our stay requests, the DOE could automatically approve all of the pending borrower defense applications concerning us that were submitted to the DOE on or before June 22, 2022 and provide such automatic approval without evaluating or accounting for any of the legal or factual grounds that we have provided for contesting the applications that were provided to us and without waiting for the Ninth Circuit to rule on our appeal. The settlement also requires the DOE to review borrower defense applications submitted after June 22, 2022 and before November 16, 2022 within 36 months of the final settlement date of November 16, 2022. It is not possible at this time to predict whether the settlement will be upheld on appeal, what actions the DOE might take if the settlement is upheld on appeal (including the ultimate timing or amount of borrower defense applications the DOE may grant in the future and the timing or amount of any possible liabilities or sanctions that the DOE may seek to recover from or impose on the Company, if any), whether the DOE or other agencies might take actions against us without waiting to see whether the settlement is upheld on appeal now that the stay requests have been denied or what the outcome of our challenges to such actions will be, but such actions could have a material adverse effect on our business and results of operations.

Further, in the ordinary conduct of its business, the Company is subject to certain lawsuits, investigations and claims, including, but not limited to, claims involving students or graduates and routine employment matters. Although the Company cannot predict with certainty the ultimate resolution of lawsuits, investigations and claims asserted against it, the Company does not believe that any of these matters will have a material adverse effect on the Company's business, financial condition, results of operations or cash flows.

10. SEGMENTS

As of January 1, 2023, the Company's business is now organized into two reportable business segments: (a) Campus Operations; and (b) Transitional. Based on trends in student demand and our program expansions, there have been more cross-offerings of programs among the various campuses. Given this change, the Company has revised the way it manages the business, evaluates performance, and allocates resources, resulting in an updated segment structure. As a result, the Company has shifted its focus to two new segments defined below:

Campus Operations – The Campus Operations segment includes all campuses that are continuing in operation and contribute to the Company’s core operations and performance.

Transitional – The Transitional segment refers to businesses that are marked for closure and are currently being taught-out. As of June 30, 2023, the only campus classified in the Transitional segment is the Somerville, Massachusetts campus, which is no longer enrolling new students and will be fully taught-out and closed by December 31, 2023.

We evaluate performance based on operating results. Adjustments to reconcile segment results to consolidated results are included in the caption “Corporate,” which primarily includes unallocated corporate activity.

Summary financial information by reporting segment is as follows:

	For the Three Months Ended June 30,					
	Revenue			Operating Income (Loss)		
	2023	% of Total	2022	% of Total	2023	2022
Campus Operations	\$ 88,213	99.5%	\$ 80,349	97.8%	\$ 4,169	\$ 8,791
Transitional	433	0.5%	1,793	2.2%	(482)	(88)
Corporate	-	-	-	-	19,828	(8,307)
Total	<u>\$ 88,646</u>	100.0%	<u>\$ 82,142</u>	100.0%	<u>\$ 23,515</u>	<u>\$ 396</u>

	For the Six Months Ended June 30,					
	Revenue			Operating income (Loss)		
	2023	% of Total	2022	% of Total	2023	2022
Campus Operations	\$ 174,565	99.2%	\$ 161,130	97.8%	\$ 14,278	\$ 17,406
Transitional	1,364	0.8%	3,567	2.2%	(679)	(150)
Corporate	-	-	-	-	8,801	(17,186)
Total	<u>\$ 175,929</u>	100.0%	<u>\$ 164,697</u>	100.0%	<u>\$ 22,400</u>	<u>\$ 70</u>

	Total Assets	
	June 30, 2023	December 31, 2022
Campus Operations	\$ 178,374	\$ 190,473
Transitional	900	1,498
Corporate	132,144	99,595
Total	<u>\$ 311,418</u>	<u>\$ 291,566</u>

11. FAIR VALUE

The accounting framework for determining fair value includes a hierarchy for ranking the quality and reliability of the information used to measure fair value, which enables the reader of the financial statements to assess the inputs used to develop those measurements. The fair value hierarchy consists of three tiers:

Level 1: Defined as quoted market prices in active markets for identical assets or liabilities.

Level 2: Defined as inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, model-based valuation techniques for which all significant assumptions are observable in the market or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Defined as unobservable inputs that are not corroborated by market data.

The Company measures the fair value of money market funds using Level 1 inputs. As of June 30, 2023, the Company has two treasury bills, one with a maturity date of three months or less, which is classified as a cash equivalent, and the other with a maturity date of greater than three months, which is classified as a short-term investment. The treasury bills are valued using Level 1 inputs. Pricing sources may include industry standard data providers, security master files from large financial institutions and other third-party sources used to determine a daily market value. The following charts reflect the fair market value of cash equivalents and short-term investments as of June 30, 2023 and December 31, 2022, respectively.

	June 30, 2023				
	Carrying Amount	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Cash equivalents:					
Money market fund	\$ 23,709	\$ 23,709	\$ -	\$ -	\$ 23,709
Treasury bill	5,043	5,043	-	-	5,043
Short-term investments:					
Treasury bill	24,344	24,353	-	-	24,353
Total cash equivalents and short-term investments	<u>\$ 53,096</u>	<u>\$ 53,105</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 53,105</u>
	December 31, 2022				
	Carrying Amount	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Cash equivalents:					
Money market fund	\$ 18,160	\$ 18,160	\$ -	\$ -	\$ 18,160
Treasury bill	10,383	10,383	-	-	10,383
Short-term investments:					
Treasury bill	14,758	14,758	-	-	14,758
Total cash equivalents and short-term investments	<u>\$ 43,301</u>	<u>\$ 43,301</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 43,301</u>

The carrying amount of the Company's financial instruments, including cash equivalents, short-term investments, prepaid expenses and other current assets, accrued expenses and other short-term liabilities, approximates fair value due to the short-term nature of these items.

12. COVID-19 PANDEMIC AND CARES ACT

The Company began seeing the impact of the global COVID-19 pandemic on its business in early March 2020 and some of the effects of the pandemic have continued. The spread of COVID-19 has had an unprecedented impact on higher educational institutions across the country, including our schools, and has led to the closure of campuses and the transition of academic programs from in-person instruction to online, remote learning and back. The impact for the Company primarily related to transitioning classes from in-person, hands-on learning to online, remote learning, which resulted in, among other things, additional expenses. Further, related to this transition, some students were placed on a leave of absence, as they could not complete their externships, and some students chose not to participate in online learning. As a result, certain programs were extended due to restricted access to externship sites and classroom labs, which did not have a material impact on our Condensed Consolidated Financial Statements. In accordance with phased reopening, as applied on a state-by-state basis, all of our schools have now reopened, and the majority of the students who were on a leave of absence or had deferred their programs returned to school to finish their programs.

In response to the COVID-19 pandemic, in 2020, the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") was signed into law, providing a \$2 trillion federal economic relief package of financial assistance and other relief to individuals and businesses impacted by the pandemic. Among other things, the CARES Act includes a \$14 billion Higher Education Emergency Relief Fund ("HEERF") for the DOE to distribute directly to institutions of higher education. The DOE has allocated funds to each institution of higher education based on a formula contained in the CARES Act. The formula is heavily weighted toward institutions with large numbers of Pell Grant recipients. The DOE allocated \$27.4 million to our schools, distributed in two equal installments, and required them to be utilized by April 30, 2021 and May 14, 2021, respectively. As of September 30, 2021, the Company had distributed the full \$13.7 million of its first installment as emergency grants to students and had utilized the full \$13.7 million of its second installment. Proceeds from the second installment for permitted expenses were primarily utilized to either offset original expenses incurred or to reduce student accounts receivable, driving a decrease in bad debt expense. Both uses resulted in a decrease in our selling, general, and administrative expenses. Institutions are required to use at least half of the HEERF funds for emergency grants to students for expenses related to disruptions in campus operations (e.g., food, housing, etc.). The law requires an institution receiving such funds to continue, to the greatest extent practicable, to pay its employees and contractors during the period of any disruptions or closures related to the COVID-19 emergency, which the Company has done. The Company was also permitted to defer payment of FICA payroll taxes through January 1, 2021 and did so, but pursuant to requirements of the deferment, repaid 50% of the deferred payments in January 2022 and, in accordance with the deferment, repaid the remaining 50% in January 2023.

In December 2020, the Consolidated Appropriations Act, 2021 was enacted, which included the Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (“CRRSAA”). The CRRSAA provided an additional \$81.9 billion to the Education Stabilization Fund, including \$22.7 billion for the HEERF, which was originally created by the CARES Act in March 2020. The higher education provisions of the CRRSAA are intended in part to provide additional financial assistance benefitting students and their postsecondary institutions in the wake of the spread of COVID-19 across the country and its impact on higher educational institutions. In March 2021, the \$1.9 trillion American Rescue Plan Act of 2021 (“ARPA”) was signed into law. Among other things, the ARPA provides \$40 billion in relief funds that go directly to colleges and universities, with \$395.8 million going to for-profit institutions. The DOE allocated a total of \$24.4 million to our schools from the funds made available under CRRSAA and ARPA. As of December 31, 2022, the Company has drawn down and distributed to our students \$14.8 million of these allocated funds. The availability of the remainder of the funds has expired as of June 30, 2023 and the Company will no longer have access to such funds. Failure to comply with requirements for the usage and reporting of these funds could result in requirements to repay some or all of the allocated funds and in other sanctions.

13. PROPERTY SALE AGREEMENT

Property Sale Agreement - Nashville, Tennessee Campus

On September 24, 2021, Nashville Acquisition, LLC, a subsidiary of the Company, entered into a Contract for the Purchase of Real Estate (the “Nashville Contract”) to sell the nearly 16-acre property located at 524 Gallatin Avenue, Nashville, Tennessee 37206, at which the Company operates its Nashville campus, to SLC Development, LLC, a subsidiary of Southern Land Company (“SLC”).

On June 8, 2023, the Company closed on the sale of its Nashville, Tennessee property to East Nashville Owner, LLC, an affiliate of SLC, for \$33.8 million pursuant to the Nashville Contract. In connection with the sale, the parties entered into a lease agreement allowing Lincoln to continue to occupy the campus and operate it on a rent-free basis for a period of 15 months while the Company seeks to relocate to a more modern facility within the Nashville market. In addition to the initial 15-month term, the lease includes three options to extend the term for consecutive 30-day terms for a rental payment of \$150,000 per extension term. While the new campus location has not yet been determined, the Company intends to invest between \$15.0 million to \$20.0 million for the buildout of the new campus, which will include two new programs with the addition of HVAC and electrical.

The net proceeds from the Nashville sale are approximately \$33.3 million, net of closing costs, which will be available for working capital, acquisitions, other strategic initiatives and general corporate purposes. The property’s carrying value is approximately \$4.5 million and the estimated fair value of the rent for the 15-month rent-free period is approximately \$2.3 million, which is currently included in prepaid expenses and other current asset on the Company’s balance sheet.

14. STUDENT RECEIVABLES

Student receivables represent funds owed to us in exchange for the educational services provided to a student. Student receivables are reflected net of an allowance for credit losses at the end of the reporting period. Student receivables, net, are reflected on our Condensed Consolidated Balance Sheets as components of both current and non-current assets.

Our students pay for their costs through a variety of funding sources, including federal loan and grant programs, institutional payment plans, Veterans Administration and other military funding and grants, private and institutional scholarships and cash payments. Cash receipts from government-related sources are typically received during the current academic term. Students who have not applied for any type of financial aid generally set up a payment plan with the institution and make payments on a monthly basis as per the terms of the payment plan. A student receivable balance is written off when deemed uncollectable, which is typically once a student is out of school and there has been no payment activity on the account for 150 days. If, however, the student does remit a payment during this time period, the 150-day policy for write-off starts again until the students either (1) continues making payments or (2) the student does not make any additional payments and is then subsequently written off after 150 days.

Effective January 1, 2023, the Company adopted ASU No. 2016-13, “Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments,” commonly known as “CECL.” On the January 1, 2023 date of adoption, based on forecasts of macroeconomic conditions and exposures at that time, the aggregate impact to the Company resulted in an opening balance sheet adjustment increasing the allowance for credit losses related to the Company’s accounts receivables of approximately \$10.8 million, a decrease in retained earnings of \$7.9 million, after-tax and a deferred tax asset increase of \$2.9 million

Students enrolled in the Company’s programs are provided with a variety of funding resources, including financial aid, grants, scholarships and private loans. After exhausting all fund options, if the student is still in need of additional financing, the Company may offer an institutional loan as a lender of last resort. Institutional loan terms are pre-determined at enrollment and are not typically restructured.

Our standard student receivable allowance is based on an estimate of lifetime expected credit losses on student receivables that considers vintages of receivables to determine a loss rate. In considering lifetime credit losses, if the expected life goes beyond the Company’s reasonable ability to forecast, the Company then reverts back to historical loss experience as an indicator of collections. In determining the expected credit losses for the period, student receivables were disaggregated and pooled into two different categories to refine the calculation. Other information considered included external factors outside the Company’s control, which included, but was not limited to, the effects of COVID-19. Given that collection history during the pandemic was not considered to be a reliable indicator of a student’s repayment history, the Company adjusted the historical loss calculation by normalizing the financial data relating to that time period. Our estimation methodology further considered a number of quantitative and qualitative factors that, based on our collection experience, we believe have an impact on our repayment risk and ability to collect student receivables. Changes in the trends in any of these factors may impact our estimate of the allowance for credit losses. These factors include, but are not limited to: internal repayment history, student status, changes in the current economic condition, legislative or regulatory environments, internal cash collection forecasts and the ability to complete the federal financial aid process with the student. These factors are monitored and assessed on a regular basis. Overall, our allowance estimation process for student receivables is validated by trending analysis and comparing estimated and actual performance.

Student Receivables

The Company has student receivables that are due greater than 12 months from the date of our Condensed Consolidated Balance Sheet. As of June 30, 2023 and December 31, 2022, the amount of non-current student receivables under payment plans that is longer than 12 months in duration, net of allowance for credit losses, was \$15.3 million and \$22.7 million, respectively. The following table presents the amortized cost basis of student receivables as of June 30, 2023 by year of origination.

<u>Year</u>	<u>Student Receivables (1)</u>	<u>June 30, 2023</u>	
		<u>Three Months Ended Write-Off's (2)</u>	<u>Six Months Ended Write-Off's (2)</u>
2023	\$ 53,823	\$ -	\$ -
2022	20,331	7,916	14,246
2021	8,865	939	2,027
2020	3,935	210	385
2019	2,662	178	387
Thereafter	1,545	96	159
Total	<u>\$ 91,161</u>	<u>\$ 9,339</u>	<u>\$ 17,204</u>

- (1) Student receivables are presented gross and only relate to amounts owed directly from the individual student. These receivables do not include amounts owed relating to federal subsidy or from corporate partnerships.
- (2) Write-off amounts included only relate to the three months and six months ended June 30, 2023.

The Company does not utilize or maintain data pertaining to student credit information.

Allowance for Credit Losses

We define student receivables as a portfolio segment under ASC Topic 326. Changes in our current and non-current allowance for credit losses related to our student receivable portfolio are calculated in accordance with the guidance effective January 1, 2023 under CECL for the three months and six months ended June 30, 2023.

	Three Months Ended June 30, 2023	Six Months Ended June 30, 2023
Balance, beginning of period	\$ 46,599	\$ 35,370
Cumulative effect of ASC 326	-	10,841
Adjusted beginning of period balance	46,599	46,211
Provision for credit losses	10,347	18,600
Write-off's	(9,339)	(17,204)
Balance, at end of period	<u>\$ 47,607</u>	<u>\$ 47,607</u>

Fair Value Measurements

The carrying amount reported in our Condensed Consolidated Balance Sheets for the current portion of student receivables approximates fair value because of the nature of these financial instruments as they generally have short maturity periods. It is not practicable to estimate the fair value of the non-current portion of student receivables, since observable market data is not readily available, and no reasonable estimation methodology exists.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

All references in this Quarterly Report on Form 10-Q ("Form 10-Q") to "we," "our," "us" and the "Company" refer to Lincoln Educational Services Corporation and its subsidiaries unless the context indicates otherwise.

The following discussion may contain forward-looking statements regarding the Company, our business, prospects, and our results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause our actual business, prospects, and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Such statements may be identified by the use of words such as "expect," "estimate," "assume," "believe," "anticipate," "may," "will," "forecast," "outlook," "plan," "project," or similar words and include, without limitation, statements relating to future enrollment, revenues, revenues per student, earnings growth, operating expenses, capital expenditures, and effect of pandemics such as the COVID-19 pandemic and its ultimate effect on the Company's business and results. These statements are based on the Company's current expectations and are subject to a number of assumptions, risks and uncertainties. Additional factors that could cause or contribute to differences between our actual results and those anticipated include, but are not limited to, those described in the "Risk Factors" section of our Form 10-K and in our other filings with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by us in this Form 10-Q and in our other reports filed with the SEC that advise interested parties of the risks and factors that may affect our business.

As of January 1, 2023, the Company's business is now organized into two reportable business segments: (a) Campus Operations; and (b) Transitional. Based on trends in student demand and program expansion, there have been more cross-offerings of programs among the various campuses. Given this change, the Company has revised the way it manages the business, evaluates performance and allocates resources, resulting in an updated segment structure. The Campus Operations segment includes campuses that are continuing in operation and contribute to the Company's core operations and performance. The Transitional segment refers to businesses that are marked for closure and are currently being taught-out. As of June 30, 2023, the only campus classified in the Transitional segment is the Somerville, Massachusetts campus, which is no longer enrolling new students and will be fully taught-out and closed by December 31, 2023.

We evaluate performance based on operating results. Adjustments to reconcile segment results to consolidated results are included in the caption "Corporate," which primarily includes unallocated corporate activity.

The interim financial statements and related notes thereto appearing elsewhere in this Form 10-Q and the discussions contained herein should be read in conjunction with the annual financial statements and notes thereto included in our Form 10-K, which includes audited Consolidated Financial Statements for the last two fiscal years ended December 31, 2022.

General

The Company provides diversified career-oriented post-secondary education to recent high school graduates and working adults. The Company offers programs in automotive technology, skilled trades (which include HVAC, welding, computerized numerical control, and electrical and electronic systems technology, among other programs), healthcare services (which include nursing, dental assistant, and medical administrative assistant, among other programs), hospitality services (which include culinary, therapeutic massage, cosmetology, and aesthetics) and information technology programs. The schools, currently consisting of 22 campuses in 14 states, operate under Lincoln Technical Institute, Lincoln College of Technology, Lincoln Culinary Institute, Euphoria Institute of Beauty Arts and Sciences, and associated brand names. Most of the campuses serve major metropolitan markets and each typically offers courses in multiple areas of study. Five of the campuses are destination schools, which attract students from across the United States and, in some cases, from abroad. The Company's other campuses primarily attract students from their local communities and surrounding areas. All of the campuses are nationally or regionally accredited and are eligible to participate in federal financial aid programs by the DOE and applicable state education agencies and accrediting commissions, which allow students to apply for and access federal student loans as well as other forms of financial aid.

Property Sale Agreement - Nashville, Tennessee Campus

On September 24, 2021, Nashville Acquisition, LLC, a subsidiary of the Company, entered into a Contract for the Purchase of Real Estate (the "Nashville Contract") to sell the nearly 16-acre property located at 524 Gallatin Avenue, Nashville, Tennessee 37206, at which the Company operates its Nashville campus, to SLC Development, LLC, a subsidiary of Southern Land Company ("SLC").

On June 8, 2023, the Company closed on the sale of its Nashville, Tennessee property to East Nashville Owner, LLC, an affiliate of SLC, for \$33.8 million pursuant to the Nashville Contract. In connection with the sale, the parties entered into a lease agreement allowing Lincoln to continue to occupy the campus and operate it on a rent-free basis for a period of 15 months while the Company seeks to relocate to a more modern facility within the Nashville market. In addition to the initial 15-month term, the lease includes three options to extend the term for consecutive 30-day terms for a rental payment of \$150,000 per extension term. While the new campus location has not yet been determined, the Company intends to invest between \$15.0 million to \$20.0 million for the buildout of the new campus, which will include two new programs with the addition of HVAC and electrical.

The net proceeds from the Nashville sale are approximately \$33.3 million, net of closing costs, which will be available for working capital, acquisitions, other strategic initiatives and general corporate purposes. The property's carrying value is approximately \$4.5 million and the estimated fair value of the rent for the 15-month rent-free period is approximately \$2.3 million, which is currently included in prepaid expenses and other current asset on the Company's balance sheet.

Critical Accounting Policies and Estimates

For a description of our critical accounting policies and estimates, refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates" and Note 1 to the Consolidated Financial Statements included in our Form 10-K and Note 1 to the Condensed Consolidated Financial Statements included in this Form 10-Q.

Allowance for Credit Losses

On January 1, 2023, the Company adopted ASU 2016-13, "Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments." As a result of the adoption, the Company has revised the way in which it calculates reserves on outstanding student accounts receivable balances. Details considered by management in the estimate include the following:

We extend credit to a portion of the students who are enrolled at our academic institutions for tuition and certain other educational costs. Based upon past experience and judgment, we establish an allowance for credit losses with respect to student receivables which we estimate will ultimately not be collectible. Our standard student receivable allowance is based on an estimate of lifetime expected credit losses for student receivables that considers vintages of receivables to determine a loss rate. Our estimation methodology considers a number of quantitative and qualitative factors that, based on our collection experience, we believe have an impact on our repayment risk and ability to collect student receivables. Changes in the trends in any of these factors may impact our estimate of the allowance for credit losses. These factors include, but are not limited to: internal repayment history, changes in the current economic, legislative or regulatory environments, internal cash collection forecasts and the ability to complete the federal financial aid process with the student. These factors are monitored and assessed on a regular basis. Overall, our allowance estimation process for student receivables is validated by trending analysis and comparing estimated and actual performance.

Management makes a range of assumptions to determine what is believed to be the appropriate level of allowance for credit losses. Management determines a reasonable and supportable forecast based on the expectation of future conditions over a supportable forecast period as described above, as well as qualitative adjustments based on current and future conditions that may not be fully captured in the historical modeling factors described above. All of these estimates are susceptible to significant change.

We monitor our collections and write-off experience to assess whether or not adjustments to our allowance percentage estimates are necessary. Changes in trends in any of the factors that we believe impact the collection of our student receivables, as noted above, or modifications to our collection practices, and other related policies may impact our estimate of our allowance for credit losses and our results from operations.

Because a substantial portion of our revenue is derived from Title IV Programs, any legislative or regulatory action that significantly reduces the funding available under Title IV Programs, or the ability of our students or institutions to participate in Title IV Programs, would likely have a material impact on the realizability of our receivables.

Effect of Inflation

Inflation has not had a material effect on our operations, except for some inflationary pressures on certain instructional expenses, including consumables, and in instances where potential students have not wanted to incur additional debt or increased travel expense.

Results of Continuing Operations for the Three and Six Months Ended June 30, 2023

The following table sets forth selected Condensed Consolidated Statements of Operations data as a percentage of revenues for each of the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2023	2022	2023	2022
Revenue	100.0%	100.0%	100.0%	100.0%
Costs and expenses:				
Educational services and facilities	45.2%	44.0%	44.4%	43.9%
Selling, general and administrative	58.5%	55.8%	58.0%	56.2%
Gain on sale of assets	-34.9%	-0.2%	-17.6%	-0.1%
Impairment of goodwill and long-lived assets	4.8%	0.0%	2.4%	0.0%
Total costs and expenses	73.5%	99.5%	87.3%	100.0%
Operating income	26.5%	0.5%	12.7%	0.0%
Interest income, net	0.6%	0.0%	0.5%	0.0%
Income (loss) from operations before income taxes	27.1%	0.4%	13.3%	0.0%
Provision (benefit) for income taxes	7.7%	0.1%	3.5%	-0.3%
Net income	19.5%	0.3%	9.7%	0.3%

Three Months Ended June 30, 2023 Compared to Three Months Ended June 30, 2022

Consolidated Results of Operations

Revenue. Revenue increased \$6.5 million, or 7.9% to \$88.6 million for the three months ended June 30, 2023 from \$82.1 million in the prior year comparable period. Excluding the Transitional segment revenue of \$0.4 million and \$1.8 million for the three months ended June 30, 2023 and 2022, respectively, our revenue would have increased \$7.9 million, or 9.8%. The remaining revenue increase was due to average revenue per student up 8.6%, driven in part by the continuing roll-out of the Company's hybrid teaching model in combination with tuition increases. The Company's hybrid teaching model increases program efficiency and delivers accelerated revenue recognition in certain evening programs. Revenue also benefited from the 17.9% growth in student starts

For a general discussion of trends in our student enrollment, see “Seasonality and Outlook” below.

Educational services and facilities expense. Our educational services and facilities expense increased \$3.9 million, or 10.9% to \$40.0 million for the three months ended June 30, 2023 from \$36.1 million in the prior year comparable period. Excluding the Transitional segment educational services and facilities expense of \$0.5 million and \$0.8 million for the three months ended June 30, 2023 and 2022, respectively, our educational services and facilities expense would have increased \$4.2 million, or 12.0%. Increased costs were primarily concentrated in instructional expense, facilities expense and books and tools expense.

Instructional expenses increased \$1.6 million driven by several factors including higher staffing levels resulting from increased student starts, merit salary increases for instructors and the transition to the Company’s hybrid teaching model.

Facilities expense increased by approximately \$1.3 million, driven by several factors including additional rent expense of \$0.3 million resulting from the new Atlanta, Georgia campus lease, and the sale of our Nashville, Tennessee property. Additional costs included an increase in utility expense resulting from higher usage and inflation in addition to increases in real estate taxes.

Books and tools expense increased \$1.3 million, driven by a 17.9% increase in student starts quarter-over-quarter.

Educational services and facilities expense, as a percentage of revenue, increased to 45.2% from 44.0% for the three months ended June 30, 2023 and 2022, respectively.

Selling, general and administrative expense. Our selling, general and administrative expense increased \$6.0 million, or 13.0% to \$51.8 million for the three months ended June 30, 2023, from \$45.8 million in the prior year comparable period. Excluding the Transitional segment selling, general and administrative expense of \$0.4 million and \$1.1 million for the three months ended June 30, 2023 and 2022, respectively, our selling general and administrative expense would have increased \$6.6 million, or 14.8%. Increased costs were driven by the following:

Administrative cost increases of \$5.4 million, driven by several factors including increased salaries expense, stock-based compensation, performance-based incentives, bad debt expense and legal costs (see Part II, Item 1. “Legal Proceedings”). Bad debt expense increased driven in part by revenue growth quarter-over-quarter in addition to a higher accounts receivable balance in the current year resulting in part from student start growth. Further contributing to additional bad debt expense were increases in reserve rates resulting from the implementation of ASC Topic 326, which requires an entity to change its accounting approach in determining impairment of certain financial instruments, including trade receivables, from an “incurred loss” methodology to a “current expected credit loss” methodology (“CECL”). Partially offsetting the administrative costs was a reduction in medical expense of \$1.0 million resulting from reduced claims.

Marketing investments increased \$0.6 million as a result of a continuing shift in marketing strategy to include additional spending in digital channels that generate higher quality, better converting leads but which come at a higher cost-per-lead. These efforts are driven primarily through the paid search and paid social media channels. We continue to reduce our dependency on lower cost third-party affiliate/pay-per-lead inquiries, which convert at relatively lower levels. Additional investments in marketing have contributed to the increase in starts quarter-over-quarter.

Student services increased \$0.6 million primarily resulting from costs associated with the centralization of our financial aid department.

Selling, general and administrative expense, as a percentage of revenue, increased to 58.5% from 55.8% for the three months ended June 30, 2023 and 2022, respectively.

Gain on sale of assets. Gain on sale of assets was \$30.9 million, resulting from the sale of the Company’s Nashville, Tennessee property. Net proceeds from the sale were approximately \$33.3 million.

Impairment of goodwill and long-lived assets. Impairment of goodwill and long-lived assets was \$4.2 million as a result of the sale of the Nashville, Tennessee property on June 8, 2023. The result of the sale created a change in the trajectory of the fair value of the Nashville, Tennessee operations and as such, the Company recorded a pre-tax non-cash impairment charge of \$3.8 million relating to goodwill and an additional \$0.4 million impairment relating to long-lived assets. As of June 30, 2022, there were no impairments of goodwill or long-lived assets.

Net interest income / expense. Net interest income was \$0.5 million for the three months ended June 30, 2023 compared to net interest expense of less than \$0.1 million in the prior year comparable period. The increase to net interest income was primarily driven by the Company's investment of its cash reserves into various short-term investments.

Income taxes. Our provision for income taxes was \$6.8 million and \$0.1 million for each of the three months ended June 30, 2023 and 2022, respectively. The increase in provision for the three months ended June 30, 2023 was due primarily to the gain on the sale of the Nashville, Tennessee property, which drove an increase in the Company's pre-tax income. The effective tax rate for both periods remained essentially flat at 28.2%.

Six Months Ended June 30, 2023 Compared to Six Months Ended June 30, 2022

Consolidated Results of Operations

Revenue. Revenue increased \$11.2 million, or 6.8% to \$175.9 million for the six months ended June 30, 2023 from \$164.7 million in the prior year comparable period. Excluding the Transitional segment revenue of \$1.4 million and \$3.6 million for the six months ended June 30, 2023 and 2022, respectively, our revenue would have increased \$13.4 million, or 8.3%. The remaining revenue increase was due to average revenue per student up 8.8%, driven in part by the continuing roll-out of the Company's hybrid teaching model in combination with tuition increases. The Company's hybrid teaching model increases program efficiency and delivers accelerated revenue recognition in certain evening programs. Revenue also benefited from the 12.5% growth in student starts..

For a general discussion of trends in our student enrollment, see "Seasonality and Outlook" below.

Educational services and facilities expense. Our educational services and facilities expense increased \$5.8 million, or 8.1% to \$78.1 million for the six months ended June 30, 2023 from \$72.3 million in the prior year comparable period. Excluding the Transitional segment educational services and facilities expense of \$1.1 million and \$1.6 million for the six months ended June 30, 2023 and 2022, respectively, our educational services and facilities expense would have increased \$6.4 million, or 9.0%. Increased costs were primarily concentrated in instructional expense, facilities expense and books and tools expense.

Instructional expenses increased \$3.2 million driven by several factors including higher staffing levels resulting from increased student starts, merit salary increases for instructors and the transition to the Company's hybrid teaching model.

Facilities expense increased by approximately \$1.6 million, driven by several factors including additional rent expense of \$0.5 million resulting from the new Atlanta, Georgia campus lease, and the sale of our Nashville, Tennessee property. Additional costs included an increase in utility expense resulting from higher usage and inflation in addition to increases in real estate taxes.

Books and tools expense increased \$1.6 million, driven by the 12.5% increase in student starts year-over-year.

Educational services and facilities expense, as a percentage of revenue, increased to 44.4% from 43.9% for the six months ended June 30, 2023 and 2022, respectively.

Selling, general and administrative expense. Our selling, general and administrative expense increased \$9.6 million, or 10.4% to \$102.1 million for the six months ended June 30, 2023, from \$92.5 million in the prior year comparable period. Excluding the Transitional segment selling, general and administrative expense of \$0.9 million and \$2.1 million for the six months ended June 30, 2023 and 2022, respectively, our selling general and administrative expense would have increased \$10.7 million, or 11.9%. Increased costs were driven by the following:

Administrative cost increases of \$8.2 million, driven by several factors including increased salaries expense, stock-based compensation, performance-based incentives, bad debt expense and legal costs (see Part II, Item 1. "Legal Proceedings"). Bad debt expense increased driven in part by revenue growth year-over-year in addition to a higher accounts receivable balance in the current year resulting in part from student start growth. Further contributing to additional bad debt expense were increases in reserve rates resulting from the implementation of ASC Topic 326, which requires an entity to change its accounting approach in determining impairment of certain financial instruments, including trade receivables, from an "incurred loss" methodology to a "current expected credit loss" methodology ("CECL"). Partially offsetting the administrative costs was a reduction in medical expense of \$1.0 million resulting from reduced claims.

Marketing investments increased \$1.5 million as a result of a continuing shift in marketing strategy to include additional spending in digital channels that generate higher quality, better converting leads but which come at a higher cost-per-lead. These efforts are driven primarily through the paid search and paid social media channels. We continue to reduce our dependency on lower cost third-party affiliate/pay-per-lead inquiries, which convert at relatively lower levels. Additional marketing investments have contributed to the increase in starts year-over-year.

Student services increased \$1.0 million primarily resulting from costs associated with the centralization of our financial aid department,

Selling, general and administrative expense, as a percentage of revenue, increased to 58.0% from 56.2% for the six months ended June 30, 2023 and 2022, respectively.

Gain on sale of assets. Gain on sale of assets was \$30.9 million, resulting from the sale of the Company's Nashville, Tennessee property. Net proceeds from the sale were approximately \$33.3 million.

Impairment of goodwill and long-lived assets. Impairment of goodwill and long-lived assets was \$4.2 million as a result of the sale of the Nashville, Tennessee property on June 8, 2023. The result of the sale created a change in the trajectory of the fair value of the Nashville, Tennessee operations and as such, the Company recorded a pre-tax non-cash impairment charge of \$3.8 million relating to goodwill and an additional \$0.4 million impairment relating to long-lived assets. As of June 30, 2022, there were no impairments of goodwill or long-lived assets.

Net interest income / expense. Net interest income was \$1.0 million for the six months ended June 30, 2023 compared to net interest expense of less than \$0.1 million in the prior year comparable period. The increase to net interest income was primarily driven by the Company's investment of its cash reserves into various short-term investments.

Income taxes. Our provision for income taxes was \$6.2 million for the six months ended June 30, 2023 compared to a benefit for income taxes of \$0.5 million in the prior year comparable period. The provision for the six months ended June 30, 2023 was due to the gain on the sale of the Nashville, Tennessee property, which drove an increase in the Company's pre-tax income. The benefit for the six months ended June 30, 2022 was due primarily to a pre-tax book loss and a discrete item relating to Restricted Stock vesting.

Segment Results of Operations

As of January 1, 2023, the Company's business is now organized into two reportable business segments: (a) Campus Operations; and (b) Transitional. Based on trends in student demand and our program expansions, there have been more cross-offerings of programs among the various campuses. Given this change, the Company has revised the way it manages the business, evaluates performance, and allocates resources, resulting in an updated segment structure. As a result, the Company has shifted its focus to the two new segments as defined below:

Campus Operations – The Campus Operations segment includes all campuses that are continuing in operation and contribute to the Company's core operations and performance.

Transitional – The Transitional segment refers to businesses that are marked for closure and are currently being taught-out. As of March 31, 2023, the only campus classified in the Transitional segment is the Somerville, Massachusetts campus, which is no longer enrolling new students and will be fully taught-out and closed by December 31, 2023.

We evaluate performance based on operating results. Adjustments to reconcile segment results to consolidated results are included in the caption "Corporate," which primarily includes unallocated corporate activity.

The following table presents results for our two reportable segments for the three months ended June 30, 2023 and 2022:

	Three Months Ended June 30,		
	2023	2022	% Change
Revenue:			
Campus Operations	\$ 88,213	\$ 80,349	9.8%
Transitional	433	1,793	-75.9%
Total	<u>\$ 88,646</u>	<u>\$ 82,142</u>	<u>7.9%</u>
Operating Income (loss):			
Campus Operations	\$ 4,169	\$ 8,791	-52.6%
Transitional	(482)	(88)	447.7%
Corporate	19,828	(8,307)	338.7%
Total	<u>\$ 23,515</u>	<u>\$ 396</u>	<u>5838.1%</u>
Starts:			
Campus Operations	4,411	3,742	17.9%
Transitional	-	110	-100.0%
Total	<u>4,411</u>	<u>3,852</u>	<u>14.5%</u>
Average Population:			
Campus Operations	12,369	12,326	0.3%
Transitional	84	311	-73.0%
Total	<u>12,453</u>	<u>12,637</u>	<u>-1.5%</u>
End of Period Population:			
Campus Operations	12,959	12,704	2.0%
Transitional	45	298	-84.9%
Total	<u>13,004</u>	<u>13,002</u>	<u>0.0%</u>

Campus Operations

Operating income was \$4.2 million and \$8.8 million for each of the three months ended June 30, 2023 and 2022, respectively. The change quarter-over-quarter was mainly driven by the following factors:

- Revenue increased \$7.9 million, or 9.8% to \$88.2 million for the three months ended June 30, 2023 from \$80.3 million in the prior year comparable period. The remaining revenue increase was due to average revenue per student up 8.6%, driven in part by the continuing roll-out of the Company's hybrid teaching model in combination with tuition increases. The Company's hybrid teaching model increases program efficiency and delivers accelerated revenue recognition in certain evening programs. Revenue also benefited from the 17.9% growth in student starts.
- Educational services and facilities expense increased \$4.2 million, or 12.0% to \$39.5 million for the three months ended June 30, 2023 from \$35.3 million in the prior year comparable period. Increased costs were primarily concentrated in instructional, facilities expense and books and tools expense.
 - o Instructional expenses increased \$1.6 million driven by several factors including higher staffing levels resulting from increased student starts, merit salary increases for instructors and the transition to the Company's hybrid teaching model.
 - o Facilities expense increased by approximately \$1.3 million, driven by several factors including additional rent expense of \$0.3 million resulting from the new Atlanta, Georgia campus lease, and the sale of our Nashville, Tennessee property. Additional costs included an increase in utility expense resulting from higher usage and inflation in addition to increases in real estate taxes.

- o Books and tools increased \$1.3 million, driven by the 17.9% increase in student starts quarter-over-quarter.
- Selling, general and administrative expense increased \$4.0 million, or 11.1% to \$40.3 million for the three months ended June 30, 2023, from \$36.3 million in the prior year comparable period. The increase was primarily driven by additional salaries expense, performance-based incentives, bad debt expense, increased investments in marketing and additional costs for student services, all of which are discussed above in the consolidated results of operations.
- Impairment of goodwill and long-lived assets was \$4.2 million as a result of the sale the Nashville, Tennessee property on June 8, 2023. The result of the sale created a change in the trajectory of the fair value of the Nashville, Tennessee operations and as such, the Company recorded a pre-tax non-cash impairment charge of \$3.8 million relating to goodwill and an additional \$0.4 million impairment relating to long-lived assets. As of June 30, 2022, there were no impairments of goodwill or long-lived assets.

Transitional

On November 3, 2022, the Board of Directors approved a plan to close the Somerville, Massachusetts campus. The owner of the Somerville property has exercised an option to terminate the lease on December 8, 2023 and the Company has since determined not to pursue relocating the campus in this geographic region. The Company has also developed a plan to deliver instruction for the remaining students prior to the closing. Total costs to close the campus including the teach-out will be approximately \$2.0 million. The campus will be fully taught-out and closed by December 31, 2023.

- Revenue decreased \$1.4 million, or 75.9% to \$0.4 million for the three months ended June 30, 2023, from \$1.8 million in the prior year comparable period.
- Total operating expenses decreased \$1.0 million, or 51.4% to \$0.9 million for the three months ended June 30, 2023, from \$1.9 million in the prior year comparable period.

Decreased operating performance is the result of closing the campus and no longer enrolling new students.

Corporate and Other

This category includes unallocated expenses incurred on behalf of the entire Company. Corporate and other expenses were \$11.1 million and \$8.5 million after excluding a \$30.9 million gain in the current year, resulting from the sale of our Nashville, Tennessee property and a \$0.2 million gain in the prior year driven by the sale of our former campus property in Suffield, Connecticut. Increased costs were driven by several factors including additional salaries expense, stock-based compensation, performance-based incentives and an increase in legal costs (see Part II, Item 1. "Legal Proceedings"). Partially offsetting these costs was a decrease in medical expense resulting from reduced claims.

The following table presents results for our two reportable segments for the six months ended June 30, 2023 and 2022:

	Six Months Ended June 30,		
	2023	2022	% Change
Revenue:			
Campus Operations	\$ 174,565	\$ 161,130	8.3%
Transitional	1,364	3,567	-61.8%
Total	<u>\$ 175,929</u>	<u>\$ 164,697</u>	<u>6.8%</u>
Operating Income (loss):			
Campus Operations	\$ 14,278	\$ 17,406	-18.0%
Transitional	(679)	(150)	352.7%
Corporate	8,801	(17,186)	151.2%
Total	<u>\$ 22,400</u>	<u>\$ 70</u>	<u>31900.0%</u>
Starts:			
Campus Operations	7,851	6,976	12.5%
Transitional	-	229	-100.0%
Total	<u>7,851</u>	<u>7,205</u>	<u>9.0%</u>
Average Population:			
Campus Operations	12,297	12,444	-1.2%
Transitional	123	317	-61.2%
Total	<u>12,420</u>	<u>12,761</u>	<u>-2.7%</u>
End of Period Population:			
Campus Operations	12,959	12,704	2.0%
Transitional	45	298	-84.9%
Total	<u>13,004</u>	<u>13,002</u>	<u>0.0%</u>

Campus Operations

Operating income was \$14.3 million and \$17.4 million for each of the six months ended June 30, 2023 and 2022, respectively. The change year-over-year was mainly driven by the following factors:

- Revenue increased \$13.4 million, or 8.3% to \$174.5 million for the six months ended June 30, 2023 from \$161.1 million in the prior year comparable period. The remaining revenue increase was due to average revenue per student up 8.8%, driven in part by the continuing roll-out of the Company's hybrid teaching model in combination with tuition increases. The Company's hybrid teaching model increases program efficiency and delivers accelerated revenue recognition in certain evening programs. Revenue also benefited from the 12.5% growth in student starts.
- Educational services and facilities expense increased \$6.4 million, or 9.0% to \$77.0 million for the six months ended June 30, 2023 from \$70.6 million in the prior year comparable period. Increased costs were primarily concentrated in instructional, facilities expense and books and tools expense.
 - o Instructional expenses increased \$3.2 million driven by several factors including higher staffing levels resulting from increased student starts, merit salary increases for instructors and the transition to the Company's hybrid teaching model.
 - o Facilities expense increased by approximately \$1.6 million, driven by several factors including additional rent expense of \$0.5 million resulting from the new Atlanta, Georgia campus lease, and the sale of our Nashville, Tennessee property. Additional costs included an increase in utility expense resulting from higher usage and inflation in addition to increases in real estate taxes

- o Books and tools increased \$1.6 million, driven by the 12.5% increase in student starts year-over-year.
- Selling, general and administrative expense increased \$6.0 million, or 8.2% to \$79.0 million for the six months ended June 30, 2023, from \$73.0 million in the prior year comparable period. The increase was primarily driven by additional salaries expense, performance-based incentives, bad debt expense, increased investments in marketing and additional costs for student services, all of which are discussed above in the consolidated results of operations.
- Impairment of goodwill and long-lived assets was \$4.2 million as a result of the sale the Nashville, Tennessee property on June 8, 2023. The result of the sale created a change in the trajectory of the fair value of the Nashville, Tennessee operations and as such, the Company recorded a pre-tax non-cash impairment charge of \$3.8 million relating to goodwill and an additional \$0.4 million impairment relating to long-lived assets. As of June 30, 2022, there were no impairments of goodwill or long-lived assets.

Transitional

On November 3, 2022, the Board of Directors approved a plan to close the Somerville, Massachusetts campus. The owner of the Somerville property has exercised an option to terminate the lease on December 8, 2023 and the Company has since determined not to pursue relocating the campus in this geographic region. The Company has also developed a plan to deliver instruction for the remaining students prior to the closing. Total costs to close the campus including the teach-out will be approximately \$2.0 million. The campus will be fully taught-out and closed by December 31, 2023.

- Revenue decreased \$2.2 million, or 61.7% to \$1.4 million for the six months ended June 30, 2023, from \$3.6 million in the prior year comparable period.
- Total operating expenses decreased \$1.7 million, or 45.0% to \$2.0 million for the six months ended June 30, 2023, from \$3.7 million in the prior year comparable period.

Decreased operating performance is the result of closing the campus and no longer enrolling new students.

Corporate and Other

This category includes unallocated expenses incurred on behalf of the entire Company. Corporate and other expenses were \$22.1 million and \$17.4 million after excluding a \$30.9 million gain in the current year, resulting from the sale of our Nashville, Tennessee property and a \$0.2 million gain in the prior year driven by the sale of our former campus property in Suffield, Connecticut. Increased costs were driven by several factors including additional salaries expense, stock-based compensation, performance-based incentives and an increase in legal costs (see Part II, Item 1. "Legal Proceedings"). Partially offsetting these costs was a decrease in medical expense resulting from reduced claims.

LIQUIDITY AND CAPITAL RESOURCES

Our primary capital requirements are for the maintenance and expansion of our facilities and the development of new programs. Our principal sources of liquidity have been cash provided by operating activities and, prior to the termination thereof (as described below), borrowings under our Credit Facility. The following chart summarizes the principal elements of our cash flow for each of the six months ended June 30, 2023 and 2022:

	Six Months Ended	
	June 30,	
	2023	2022
Net cash provided by (used in) operating activities	\$ 10,403	\$ (9,992)
Net cash provided by (used in) investing activities	12,823	(1,192)
Net cash used in financing activities	(2,945)	(5,138)

As of June 30, 2023, the Company had \$70.6 million in cash and cash equivalents and restricted cash, in addition to \$24.3 million in short-term investments, compared to \$50.3 million cash and cash equivalents and restricted cash, including \$14.7 million in short-term investments as of December 31, 2022. The increase in cash was primarily driven by the sale of our Nashville, Tennessee property, which yielded proceeds of approximately \$33.3 million. Partially offsetting the increase in cash are several factors including \$10.9 million in capital expenditure investments made during the six months ended June 30, 2023, which were primarily due to the ongoing buildout of the new Atlanta, Georgia campus, incentive compensation payments, share repurchases made under the share repurchase program, and one-time costs incurred in connection with the teach-out of our Somerville, Massachusetts campus. In addition, our cash position in prior years benefited from \$2.4 million in net proceeds received as a result of the sale of a former campus located in Suffield, Connecticut, which was consummated during the second quarter of 2022.

On May 24, 2022, the Company announced that its Board of Directors had authorized a share repurchase program of up to \$30.0 million of the Company's outstanding Common Stock. The share repurchase program was authorized for 12 months. On February 27, 2023, the Board of Directors extended the share repurchase program for an additional 12 months and authorized the repurchase of an additional \$10.0 million of the Company's Common Stock, for an aggregate of up to \$30.6 million in additional repurchases. As of June 30, 2023, the Company has approximately \$29.7 million remaining for repurchases.

During the six months ended June 30, 2023, the Company repurchased 165,064 shares at a cost of approximately \$0.9 million. Total repurchases made since the inception of the share repurchase program through June 30, 2023 were 1,737,478 shares at a total cost of approximately \$10.3 million.

Our primary source of cash is tuition collected from our students. The majority of students enrolled at our schools rely on funds received under various government-sponsored student financial aid programs to pay a substantial portion of their tuition and other education-related expenses. The most significant source of student financing is Title IV Programs, which represented approximately 74% of our cash receipts relating to revenues in 2022. Pursuant to applicable regulations, students must apply for a new loan for each academic period. Federal regulations dictate the timing of disbursements of funds under Title IV Programs and loan funds are generally provided by lenders in two disbursements for each academic year. The first disbursement is usually received approximately 31 days after the start of a student's academic year and the second disbursement is typically received at the beginning of the sixteenth week from the start of the student's academic year. Certain types of grants and other funding are not subject to a 31-day delay. In certain instances, if a student withdraws from a program prior to a specified date, any paid but unearned tuition or prorated Title IV Program financial aid is refunded according to federal, state and accrediting agency standards.

As a result of the significant amount of Title IV Program funds received by our students, we are highly dependent on these funds to operate our business. Any reduction in the level of Title IV Program funds that our students are eligible to receive for tuition payments to us or any restriction on our eligibility to receive Title IV Program funds would have a significant impact on our operations and our financial condition. For more information, see Part I, Item 1A. "Risk Factors - Risks Related to Our Industry" of our Form 10-K.

Operating Activities

Operating cash flow results primarily from cash received from our students, offset by changes in working capital demands. Working capital can vary at any point in time based on several factors including seasonality, timing of cash receipts and payments and vendor payment terms.

Net cash provided by operating activities was \$10.4 million for the six months ended June 30, 2023 compared to net cash used of \$10.0 million in the prior year comparable period. The main drivers for the cash provided by operating activities included a \$4.3 million increase in accounts payable during the six months ended June 30, 2023 resulting from the timing of cash disbursements, an increase in accrued expense of \$8.5 million over the prior year resulting from a \$6.1 million performance-based incentive payment made during the first quarter of 2022 and a \$6.2 million increase in prepaid income taxes and income taxes payable, resulting from increased pre-tax earnings driven by the sale of the Nashville, Tennessee property during the second quarter of 2023.

Investing Activities

Net cash provided by investing activities was \$12.8 million for the six months ended June 30, 2023 compared to net cash used in investing activities of \$1.2 million in the prior year comparable period. Cash provided by investing activities in the current year was primarily driven by \$33.3 million in proceeds received from the sale of our Nashville, Tennessee campus, partially offset by investments of \$10.9 million in capital expenditures primarily relating to our new Atlanta, Georgia campus and net purchases of short-term investment totaling \$9.6 million in the current year.

One of our primary uses of cash in investing activities was capital expenditures associated with investments in training technology, classroom furniture, and new program buildouts. Additionally, the Company has reinvested \$24.3 million for the purchase of short-term investments.

As we have now consummated the sale of the Nashville, Tennessee property, we currently lease all of our campuses.

Capital expenditures were 3% of revenues in 2022 and are expected to approximate 11% of revenues in 2023. The significant increase in planned capital expenditures over the prior year will be driven by several factors that include, but are not limited to, the buildout of our new Atlanta, Georgia area campus, additional space, the planned introduction of three new programs at the Lincoln, Rhode Island campus, and the anticipated introduction of new programs at five other campuses. We expect to fund future capital expenditures with cash generated from operating activities and cash on hand.

Financing Activities

Net cash used in financing activities for the six months ended June 30, 2023 and 2022 was \$2.9 million and \$5.1 million, respectively. The decrease in cash used of \$2.2 million was primarily driven by a \$1.6 million reduction in repurchases made under the Company's share repurchase program in the current year, in addition to \$0.6 million of dividends payments made in the prior year.

Credit Facility

On November 14, 2019, the Company entered into a senior secured credit agreement (the "Credit Agreement") with its lender, Sterling National Bank (the "Lender"), providing for borrowing in the aggregate principal amount of up to \$60 million (the "Credit Facility"). Initially, the Credit Facility was comprised of four facilities: (1) a \$20 million senior secured term loan maturing on December 1, 2024 (the "Term Loan"), with monthly interest and principal payments based on a 120-month amortization, with the outstanding balance due on the maturity date; (2) a \$10 million senior secured delayed draw term loan maturing on December 1, 2024 (the "Delayed Draw Term Loan"), with monthly interest payments for the first 18 months and thereafter monthly payments of interest and principal based on a 120-month amortization and all balances due on the maturity date; (3) a \$15 million senior secured committed revolving line of credit providing a sublimit of up to \$10 million for standby letters of credit maturing on November 13, 2022 (the "Revolving Loan"), with monthly payments of interest only; and (4) a \$15 million senior secured non-restoring line of credit maturing on January 31, 2021 (the "Line of Credit Loan"). The Credit Facility was secured by a first priority lien in favor of the Lender on substantially all of the personal property owned by the Company as well as a pledge of the stock and other rights in the Company's subsidiaries and mortgages on parcels of real property owned by the Company. The Credit Agreement was amended on various occasions.

On November 4, 2022, the Company agreed with its Lender to terminate the Credit Agreement and the remaining Revolving Loan. The Lender agreed to allow the Company's existing letters of credit to remain outstanding provided that they are cash collateralized. As of June 30, 2023, the letters of credit, in the aggregate outstanding principal amount of \$4.0 million, remained outstanding, were cash collateralized, and were classified as restricted cash on the Condensed Consolidated Balance Sheet. As of June 30, 2023, the Company did not have a credit facility and did not have any debt outstanding. The Company is continuing to consider potential lenders for its future credit needs.

Contractual Obligations

Current portion of Long-Term Debt, Long-Term Debt and Lease Commitments. As of June 30, 2023, we had no debt outstanding. We lease offices, educational facilities and various items of equipment for varying periods through the year 2041 at basic annual rentals (excluding taxes, insurance, and other expenses under certain leases).

As of June 30, 2023, we had outstanding loan principal commitments to our active students of \$29.4 million. These are institutional loans and no cash is advanced to students. The full loan amount is not guaranteed unless the student completes the program. The institutional loans are considered commitments because the students are required to fund their education using these funds and they are not reported on our financial statements.

Regulatory Updates

Negotiated Rulemaking

The DOE initiated rulemaking on several topics in January 2022 and, after delays in the process, announced in January 2023 its intention to reinstate the rulemaking process on topics including gainful employment, financial responsibility, administrative capability, certification procedures, ability to benefit and improving income driven repayment of loans. See our Form 10-K at “Business – Regulatory Environment – Negotiated Rulemaking.” On May 19, 2023, the DOE published a notice of proposed rulemaking in the Federal Register that includes proposed regulations on topics including:

- **Gainful Employment:** The proposed regulations would replace prior gainful employment regulations, rescinded by the DOE in 2019, that required each of our educational programs to achieve threshold rates in at least one of two debt measure categories. See our Form 10-K at “Business – Regulatory Environment – Gainful Employment.” The proposed regulations would establish rules for annually evaluating each of our educational programs based on the calculation of debt-to-earnings rates (an annual debt-to-earnings rate and a discretionary debt-to-earnings rate) and a median earnings measure. The DOE would calculate these rates and measures under complex regulatory formulas outlined in the proposed regulations and using data such as student debt (including not only Title IV loans but also certain private loans and extensions of credit), student earnings data, and comparative median earnings data for young working adults with only a high school diploma or GED. If one or more of our educational programs were to yield debt-to-earnings rates or a median earnings measure that do not comply with regulatory benchmarks for two of three consecutive years, we would lose Title IV eligibility for each of the impacted educational programs. The proposed regulations also would require us to provide warnings to current and prospective students for programs in danger of losing of Title IV eligibility (which could deter prospective students from enrolling and current students from continuing their respective programs). The regulations also require providing certifications and reporting data to the DOE and providing required student disclosures related to gainful employment.

The proposed regulations include gainful employment rates and measures that would be based in part on data that is not readily accessible to us and other institutions, which would make it difficult for us to predict with certainty how our educational programs will perform under the new gainful employment benchmarks and the extent to which certain programs could become ineligible for Title IV participation. The DOE released performance data at the time it published the proposed regulations that calculates rates for each school’s program while acknowledging that the methodology used to produce the calculations differs from the methodology in the proposed regulations due to limitations in data availability. Because neither we nor the DOE have access to all of the data that would ultimately be used under the proposed regulations to evaluate our programs, we cannot predict, whether or the extent to which our programs could fail to comply with the new gainful employment benchmarks. Moreover, we would not have control over some of the factors that could impact the rates and measures for our programs, which would limit our ability to eliminate or mitigate the impact of the proposed regulations on us and our educational programs.

We cannot predict the substance or extent of the final regulations or how our programs will perform under the final version of the gainful employment metrics.

- **Financial Responsibility:** The DOE’s proposed financial responsibility regulations include an expanded list of mandatory and discretionary triggering events that could result in the DOE determining that an institution lacks financial responsibility and must submit to the DOE a letter of credit or other form of acceptable financial protection and accept other conditions on the institution’s Title IV Program eligibility. See our Form 10-K at “Business – Regulatory Environment – Financial Responsibility Standards.”

The proposed regulations if adopted would, among other things, modify and substantially expand the number of triggers and, as a result, increase the likelihood that the DOE could impose a financial protection requirement and other conditions on us and our institutions. The proposed rules require the institution to notify the DOE of a triggering event and provide information demonstrating why the event does not warrant the submission of a letter of credit or imposition of other requirements. The proposed rules state that, if the DOE requires financial protection as a result of more than one mandatory or discretionary trigger, the DOE will require separate financial protection for each individual trigger, which could substantially increase the amount of financial protection we and other institutions could be required to provide to the DOE.

Examples of mandatory triggering events under the proposed regulations are a lawsuit by a federal or state authority, or through a qui tam lawsuit, in which the federal government has intervened where the suit has been pending for 120 days, where the DOE seeks to recover the cost of adjudicated claims in favor of borrowers under the borrower loan discharge regulations and the claims would lower the institution’s composite score below 1.0, certain debts or settlements in certain judicial, administrative or arbitration proceedings, certain withdrawals of owner’s equity including by dividend, gainful employment issues, accreditor requirements to submit a teach-out plan, certain state actions by state licensing agencies, certain actions taken against a publicly traded company or failure to file timely certain annual or quarterly reports, 90/10 issues, cohort default rate issues, loss of eligibility for other federal educational assistance programs, contributions and distributions occurring near the fiscal year end that materially impact the composite score, certain defaults or other adverse events under a financing arrangement or certain financial exigencies or receiverships.

Examples of discretionary triggering events under the proposed regulations are certain accrediting agency actions, certain creditor events, fluctuations in Title IV volume, high annual dropout rates, indicators of material change in the financial condition of the institution, the formation by the DOE of a group process to consider borrower defense claims against the institution, the institution's discontinuation of education programs affecting at least 25 percent of enrolled students, the institution's closure of most of its locations, certain state licensing agency actions, certain instances of short-term borrowing, the loss of program eligibility in another federal educational assistance program, a requirement to disclose in a public filing that the company is under investigation for possible violations of law or if the institution is cited and faces loss of education assistance funds from another federal agency if it does not comply with agency requirements. The proposed regulations also establish new rules for evaluating financial responsibility during a change in ownership.

- **Administrative Capability:** The DOE assesses the administrative capability of each institution that participates in Title IV Programs under a series of separate standards. Failure to satisfy any of the standards may lead the DOE to find the institution ineligible to participate in Title IV Programs or to place the institution on provisional certification as a condition of its participation. See our Form 10-K at "Business – Regulatory Environment – Administrative Capability." Newly proposed rules would add more standards related to topics such as the provision of adequate financial aid counseling and career services, ensuring the availability of clinical and externship opportunities, the disbursement of Title IV funds in a timely manner, compliance with high school diploma requirements, preventing misrepresentations, complying with gainful employment requirements and avoiding significant negative actions with a federal, state, or accrediting agency.
- **Certification Regulations:** The proposed regulations expand the grounds for placing institutions on provisional certification, expand the types of conditions the DOE may impose on provisionally certified institutions and expand the number of requirements contained in the institution's program participation agreement with the DOE (including, among other requirements, an obligation to comply generally with state consumer protection laws). The DOE typically provides provisional certification to an institution following a change in ownership resulting in a change of control and also may provisionally certify an institution for other reasons including, but not limited to, noncompliance with certain standards of administrative capability and financial responsibility. The DOE provisionally certified all of our institutions based on findings in recent audits of each institution's Title IV Program compliance that the DOE alleges identified deficiencies related to DOE regulations regarding an institution's level of administrative capability. An institution that is provisionally certified receives fewer due process rights than those received by other institutions in the event the DOE takes certain adverse actions against the institution, is required to obtain prior DOE approvals of new campuses and educational programs and may be subject to heightened scrutiny by the DOE. Provisional certification makes it easier for the DOE to revoke or decline to renew our Title IV eligibility if the DOE under the current administration chooses to take such an action against us and other provisionally certified for-profit schools without undergoing a formal administrative appeal process. See our Form 10-K at "Business – Regulatory Environment – Regulation of Federal Student Financial Aid Programs."

The proposed regulations if adopted would allow the DOE to place institutions on provisional certification if, among other reasons, the institution does not meet financial responsibility factors or administrative capability standards, if the institution is required by the DOE to submit a letter of credit as a result of a mandatory or discretionary triggering event or if the DOE deems the institution to be at risk of closure.

The proposed regulations also would allow the DOE to determine whether to certify or impose conditions on an institution based on consideration of factors including, for example, the institution's withdrawal rate, the institution's gainful employment metrics such as its debt-to-earnings rates and earnings premium measures, the amounts the institution spent on recruiting activities, advertising, and other pre-enrollment activities, and the passage rate for licensure exams for programs that are designed to meet the educational requirements for a professional license required for employment in an occupation.

The proposed regulations expand the types of conditions the DOE can impose on provisionally certified institutions including, for example, restrictions on the addition of new programs or locations, restrictions on the rate of growth or new enrollment of students or of Title IV volume, restrictions on the institution providing a teach-out on behalf of another institution, restrictions on the acquisition of another participating institution (including financial protection requirements), additional reporting requirements, limitations on entering into certain written arrangements with institutions or entities for providing part of an educational program, requirements to submit marketing and recruiting materials to the DOE for approval (if the institution is alleged or found to have engaged in misrepresentations to students, engaged in aggressive recruiting practices, or violated incentive compensation rules) and other potential conditions imposed by the DOE.

The DOE will receive public comments to the proposed regulations and consider whether to modify the proposed regulations before publishing the final regulations. If the DOE publishes final regulations by November 1, 2023, the regulations typically would have a general effective date of July 1, 2024. We are still reviewing the proposed regulations and cannot predict the ultimate timing, content and impact of the final regulations on all of these topics. However, the final version of these regulations is expected to impose a broad range of additional requirements on institutions, especially on for-profit institutions like our schools which would likely increase the possibility that our schools could be subject to additional reporting requirements, to potential liabilities and sanctions and to potential loss of Title IV eligibility if our efforts to modify our operations to comply with the regulations are unsuccessful.

Accreditation

Accreditation by an accrediting agency recognized by the DOE is required for an institution to be certified to participate in Title IV Programs. As of June 30, 2023, all 22 of our campuses are nationally accredited by the Accrediting Commission of Career Schools and Colleges (the "ACCSC"). On October 28, 2021, the DOE announced that it had notified ACCSC that a decision on the recognition by the DOE of ACCSC as an accrediting agency was being deferred pending the submission of additional information about ACCSC's monitoring, evaluation and actions related to high-risk institutions. ACCSC's loss of DOE recognition could have led to adverse consequences to our schools including, but not limited to, their loss of Title IV eligibility. See our Form 10-K at "Business – Regulatory Environment – Accreditation." On May 25, 2023, the DOE notified ACCSC that it would continue the DOE's recognition of the agency as a nationally recognized accreditor for three years.

Seasonality

Our revenue and operating results normally fluctuate as a result of seasonal variations in our business, principally due to changes in total student population. Student population varies due to new student enrollments, graduations and student attrition. Historically, our schools have had lower student populations in our first and second quarters and we have experienced larger class starts in the third quarter and higher student attrition in the first half of the year. The growth that we generally experience in the second half of the year is largely dependent on a successful high school recruiting season. We recruit high school students several months ahead of their scheduled start dates and, as a consequence, while we have visibility on the number of students who have expressed interest in attending our schools, we cannot predict with certainty the actual number of new student enrollments in any given year and the related impact on revenue. Our expenses, however, typically do not vary significantly over the course of the year with changes in our student population and revenue.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required by this item.

Item 4. CONTROLS AND PROCEDURES

(a) *Evaluation of Disclosure Controls and Procedures.* Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Securities Exchange Act Rule 13a-15(e)) as of the end of the quarterly period covered by this Form 10-Q, have concluded that our disclosure controls and procedures are adequate and effective to reasonably ensure that material information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) *Changes in Internal Control Over Financial Reporting.* There were no changes made during our most recently completed fiscal quarter in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, except for new internal controls related to ASC 326 and accounts payable payment processing that have been implemented.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

On November 16, 2022, the U.S. District Court for the Northern District of California granted final approval of a settlement agreement in the lawsuit *Sweet v. Cardona*, No. 3:19-cv-3674 (N.D. Cal.). Under the settlement agreement, the DOE agreed to discharge loans and refund all prior loan payments to covered student borrowers who have asserted a Borrower Defense to Repayment to the DOE and whose borrower defense claims have not yet been granted or denied on the merits, which includes former students at our institutions as well as at a long list of other institutions. Subsequently, we and two other intervening school companies filed notices of appeal and asked the District Court to stay the settlement from taking effect until the appeals were decided. Plaintiffs and the DOE thereafter filed oppositions to our stay request and, after a hearing, the District Court denied our stay request, but extended the temporary stay of loan discharges and refunds associated with the three school companies for seven days to allow us to file a motion for a stay with the U.S. Court of Appeals for the Ninth Circuit. On February 27, 2023, we and the two other school companies that appealed filed a joint motion for a stay with the Ninth Circuit. On March 29, 2023, the Ninth Circuit denied our motion to stay the judgment pending appeal. On April 4, 2023, we and the two other school companies filed an emergency application with the Supreme Court of the United States to stay the District Court's judgment. On April 13, 2023, the Supreme Court denied our petition.

Despite the denials of our stay requests, we have filed a joint appeal with the Ninth Circuit to overturn the District Court's judgment approving the final settlement and expect that oral argument will be scheduled for late 2023 or early 2024. However, as previously reported, as a result of the denials of our stay requests, the DOE could automatically approve all of the pending borrower defense applications concerning us that were submitted to the DOE on or before June 22, 2022 and provide such automatic approval without evaluating or accounting for any of the legal or factual grounds that we have provided for contesting the applications that were provided to us and without waiting for the Ninth Circuit to rule on our appeal. The settlement also requires the DOE to review borrower defense applications submitted after June 22, 2022 and before November 16, 2022 within 36 months of the final settlement date of November 16, 2022. It is not possible at this time to predict whether the settlement will be upheld on appeal, what actions the DOE might take if the settlement is upheld on appeal (including the ultimate timing or amount of borrower defense applications the DOE may grant in the future and the timing or amount of any possible liabilities or sanctions that the DOE may seek to recover from or impose on the Company, if any), whether the DOE or other agencies might take actions against us without waiting to see whether the settlement is upheld on appeal now that the stay requests have been denied or what the outcome of our challenges to such actions will be, but such actions could have a material adverse effect on our business and results of operations.

Further, in the ordinary conduct of its business, the Company is subject to certain lawsuits, investigations and claims, including, but not limited to, claims involving students or graduates and routine employment matters. Although the Company cannot predict with certainty the ultimate resolution of lawsuits, investigations and claims asserted against it, the Company does not believe that any of these matters will have a material adverse effect on the Company's business, financial condition, results of operations or cash flows.

Item 1A. RISK FACTORS

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A of our Form 10-K and those contained in our previously filed Form 10-Q, which could affect our business, financial condition, or operating results. The risks we describe in our periodic reports are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition, or operating results. For the quarter ended June 30, 2023, the Company is not aware of any specific new and additional risk factors not previously disclosed.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

- (a) None.
- (b) None.
- (c) On May 24, 2022, the Company announced that the Board of Directors had approved a share repurchase program for 12 months authorizing purchases of up to \$30.0 million. Subsequently, on February 27, 2023, the Board of Directors extended the share repurchase program for an additional 12 months and authorized the repurchase of an additional \$10 million of the Company's Common Stock, for an aggregate of up to \$30.6 million in additional repurchases.

The following table presents the number and average price of shares purchased during the three months ended June 30, 2023. The remaining authorized amount for share repurchases under the program as of June 30, 2023 was approximately \$29.7 million.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publically Announced Plan	Maximum Dollar Value of Shares Remaining to be Purchased Under the Plan
April 1, 2023 to April 30, 2023	58,875	\$ 5.49	58,875	\$ 29,675,533
May 1, 2023 to May 31, 2023	2,159	5.50	2,159	29,663,667
June 1, 2023 to June 30, 2023	-	-	-	-
Total	61,034	5.49	61,034	

For more information on the share repurchase plan, see Note 7 to our Condensed Consolidated Financial Statements.

Item 3. DEFAULTS UPON SENIOR SECURITIES

- (a) None.
- (b) None

Item 4. MINE SAFETY DISCLOSURES

None.

Item 5. OTHER INFORMATION

- (a) None.
- (b) None.
- (c) None.

Item 6. EXHIBITS

<u>Exhibit Number</u>	<u>Description</u>
3.1	Amended and Restated Certificate of Incorporation of the Company (incorporated by reference to the Company’s Registration Statement on Form S-1/A (Registration No. 333-123644) filed June 7, 2005.
3.2	Certificate of Amendment, dated November 14, 2019, to the Amended and Restated Certificate of Incorporation of the Company (incorporated by reference to Exhibit 3.2 of the Company’s Registration Statement on Form S-3 filed October 6, 2020).
3.3	Bylaws of the Company as amended on March 8, 2019 (incorporated by reference to Exhibit 3.1 of the Company’s Form 8-K filed April 30, 2020).
31.1*	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2*	Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32**	Certification of Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

CERTIFICATION

I, Scott Shaw, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Lincoln Educational Services Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: August 7, 2023

Chief Executive Officer

CERTIFICATION

I, Brian Meyers, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Lincoln Educational Services Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION

**Pursuant to 18 U.S.C. 1350 as adopted by
Section 906 of the Sarbanes-Oxley Act of 2002**

Each of the undersigned, Scott Shaw, Chief Executive Officer of Lincoln Educational Services Corporation (the “Company”), and Brian Meyers, Chief Financial Officer of the Company, has executed this certification in connection with the filing with the Securities and Exchange Commission of the Company’s Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2023 (the “Report”).

Each of the undersigned hereby certifies that, to his respective knowledge:

1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Date: August 7, 2023
