Safe Harbor Statement

Statements in this presentation regarding Lincoln’s business that are not historical facts may be “forward-looking statements” that involve risks and uncertainties. Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the time those statements are made and/or management’s good faith belief as of that time with respect to future events and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to: our failure to comply with the extensive regulatory framework applicable to our industry or our failure to obtain timely regulatory approvals in connection with a change of control of our company or acquisitions; our success in updating and expanding the content of existing programs and developing new programs in a cost-effective manner or on a timely basis; risks associated with changes in applicable federal laws and regulations, including final rules that took effect during 2011 and other pending rulemaking by the U.S. Department of Education; uncertainties regarding our ability to comply with federal laws and regulations regarding the 90/10 rule and cohort default rates; risks associated with the opening of new campuses; risks associated with integration of acquired schools; industry competition; our ability to execute our growth strategies; conditions and trends in our industry; the COVID-19 pandemic and its impact on our business and the U.S. and global economics; general economic conditions; and other factors discussed in our annual report on Form 10-K for the year ended December 31, 2023. For a discussion of such risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see “Risk Factors” in Lincoln’s annual report on Form 10-K for the year ended December 31, 2023. All forward-looking statements are qualified in their entirety by this cautionary statement, and Lincoln undertakes no obligation to revise or update this news release to reflect events or circumstances after the date hereof.

Investment Opportunity

Skills Gap

Employers cannot find enough technically trained employees and with the infrastructure bill passed demand for skilled workers should be even greater

Leader

Lincoln is a leading, technical, hands-on educator and trainer serving high demand industries (transportation, skilled trades and healthcare) facing this Skills Gap

Growth

Proven ability to grow population and revenue in high and low unemployment markets

Profitability

Returning to long term significant operating leverage with approximately 40% of incremental revenue dropping to the bottom line.

Balance sheet

Strong balance sheet with resources to expand programs and campuses to accelerate growth

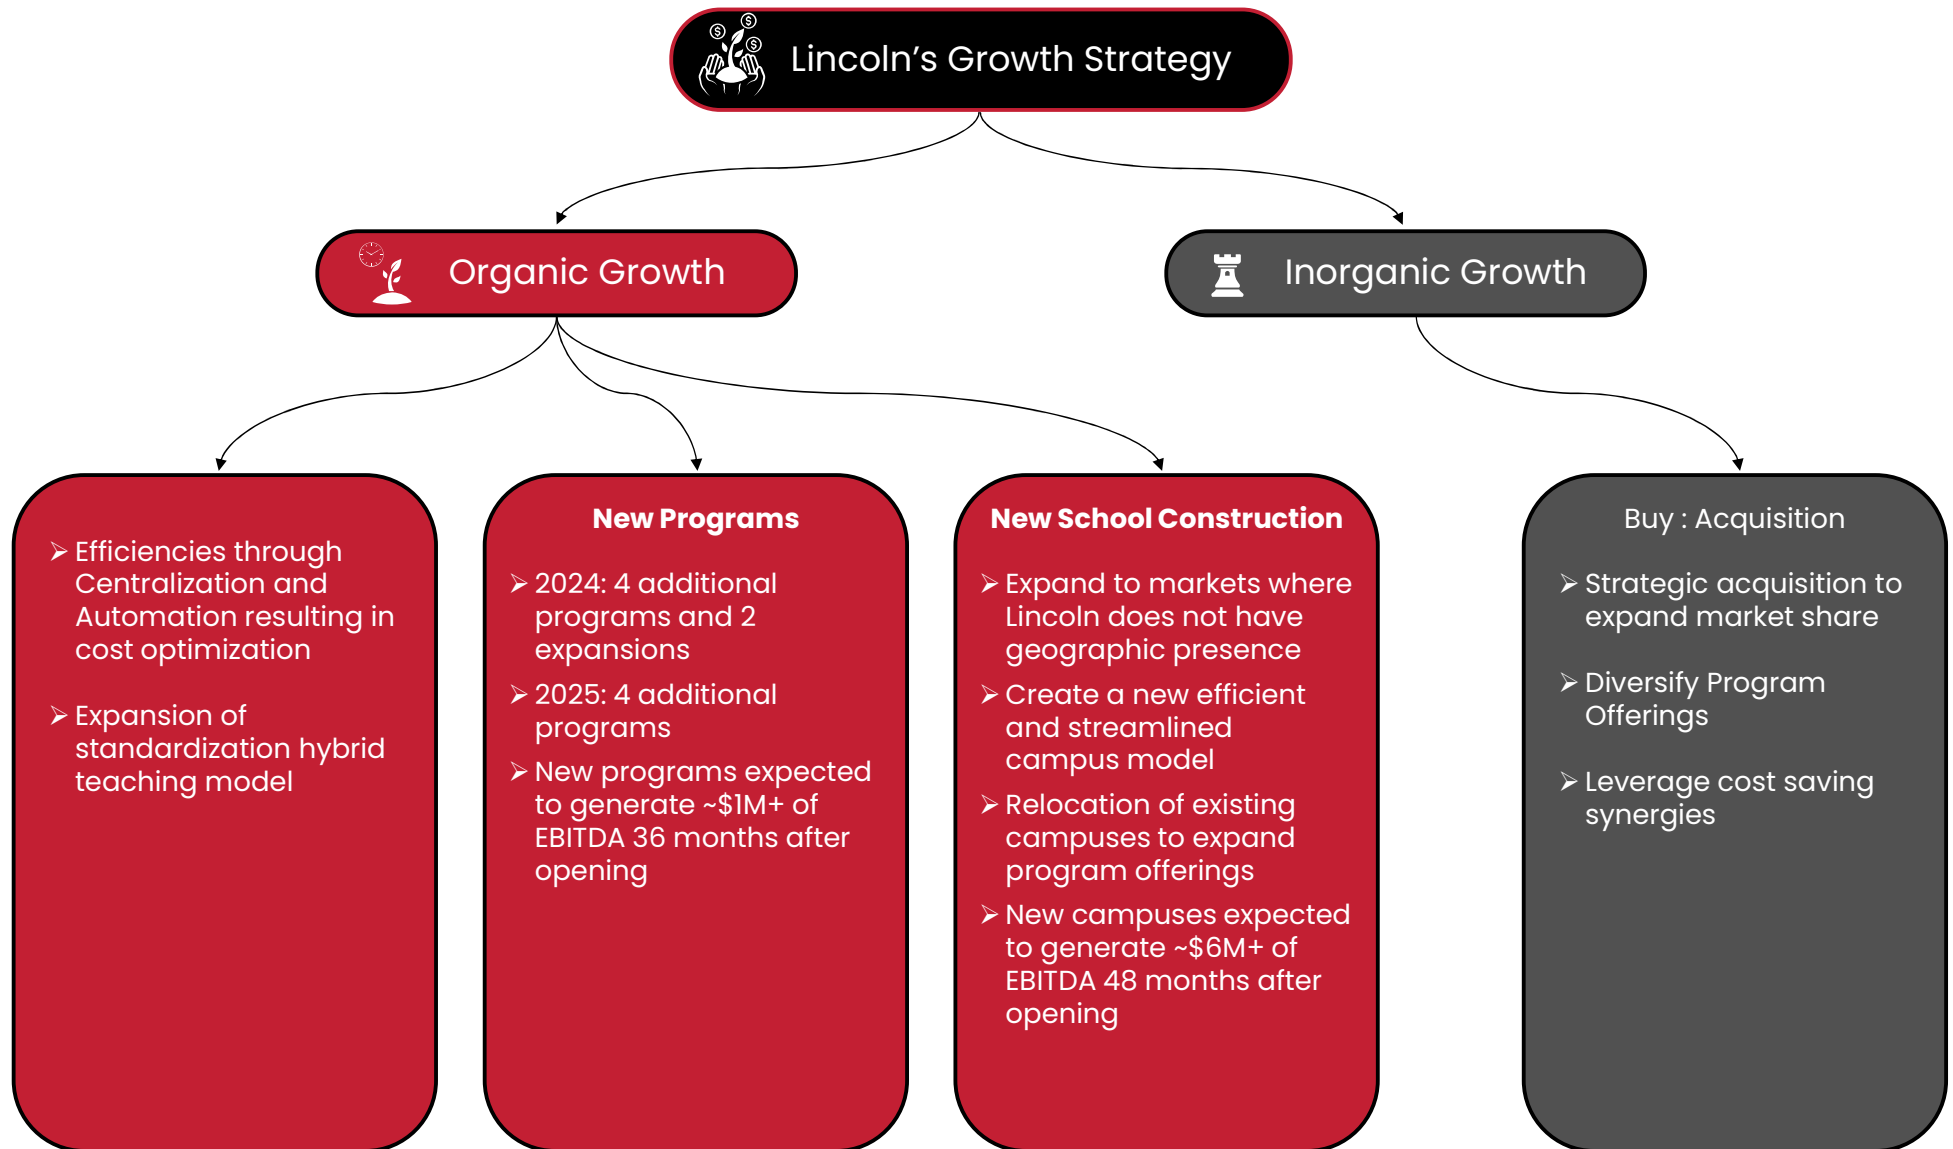

Increasing Efficiency

Continuing efforts to streamline and standardize operations including moving to a more efficient hybrid learning model, and standardizing curriculum.

Hybrid model is more attractive to students

Growth Strategy

Strategic Growth Plan

2027 Projections:
 Net Income: ~\$43M
 EPS: ~\$1.35
 Cash from Ops: ~\$65M

* 2024 represents the midpoint of guidance
 ** New Locations: East Point, GA; Houston, TX; Levittown, PA (Philadelphia); and Nashville, TN. Includes only locations for which Lincoln Tech has acquired space or signed a lease and does not reflect additional opportunities the company may pursue in the future.

Lincoln Hybrid Learning Model

- Expands capacity at existing campuses
- Efficiencies from Lincoln's hybrid program (Lincoln 10.0) are expected to generate instructional cost savings
- Creating standard scheduling methodology across all campuses to drive further efficiencies
- Standard curriculum design and three schedule options improve student experience and outcomes

New Campus Pro-Forma Hybrid Learning Model

Facilities

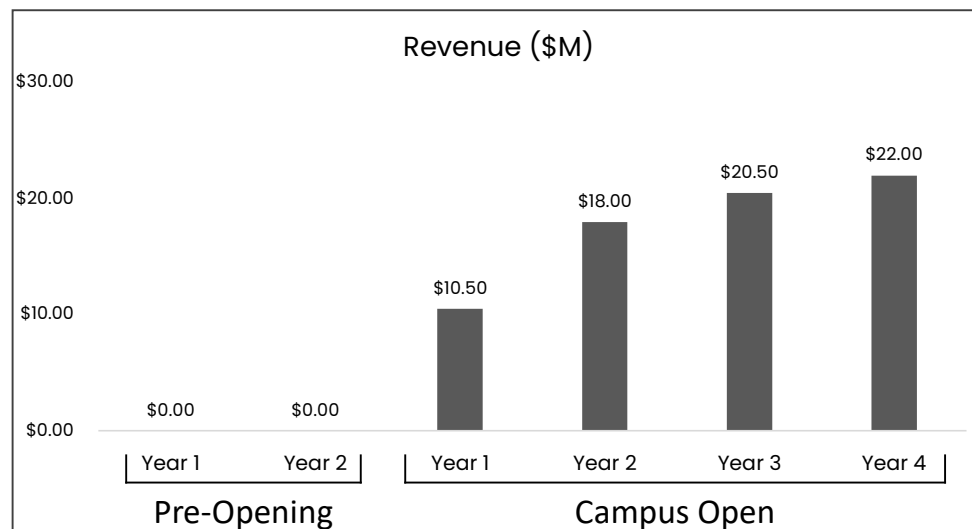

State-of-the-art facilities ~60k – 80k square feet

Blended Programs

The Campus will offer a mix of Automotive and Skilled Trade Programs in the Hybrid Learning Model.

Financials

- CapEx: ~\$20M
- ~\$4.5M of EBITDA loss prior to opening
- Classes start ~2 years from lease signing
- Accretive to earnings within 2 years of class start
- Avg Pop of ~625 students by Year 4

EBITDA includes corporate allocations

Disciplined Acquisition Strategy

- Strong history of regulatory compliance including outcomes
- Low 90/10 ratio
- Completed more than 10 acquisitions over the years

- Diversify our program offerings - Expand program offerings to our existing locations
- Replicate our programs in acquired schools

- Synergies - eliminate duplicate costs/streamline costs
- Expand geographic footprint

- Grow market share and profitability by leveraging high school recruiting and cost-effective marketing platform

Lincoln Graduates are Essential Workers

Approximately 90% of our students are pursuing careers that the U.S Department of Homeland Security considers Essential Critical Infrastructure Workers.

Demand for “Middle Skills Training”

Middle-skill jobs, which require education beyond high school but not a four-year degree, make up the largest part of America’s labor market.

(Source: U.S. Bureau of Labor Statistics)

Lincoln connects employers with entry level trained professionals from the adult, high school and military sectors.

Employment by Typical Entry-Level Education

Drivers of Organic Demand for Training

Supply

- Societal pressure to go to college
- Elimination of Vo-Tec programs

GAP

Demand

- New appreciation for skills-trade training
- Silver Tsunami – aging baby-boomers retiring from the workplace
- Growing skepticism of the value of college
- Employers struggle to find interested candidates
- Simple jobs have become more complex with technology
- Strong demand in healthcare, manufacturing, and construction
- Infrastructure spending will exacerbate the shortage
- Less stigma – Essential Workers

Significant Opportunity for Organic Growth

Compliance Stats

90/10 Rule : This rule caps the percentage of revenue that a proprietary institution can receive from federal financial aid sources at 90%; the other 10% of revenue must come from alternative sources. Starting in 2023, the Veteran Affairs benefits are counted as federal financial aid in the numerator.

CDR : It is the percentage of a school's borrowers who enter repayment on certain Federal Family Education Loan (FFEL) Program or William D. Ford Federal Direct Loan (Direct Loan) Program loans during a particular federal fiscal year (FY), October 1st to September 30th, and default or meet other specified conditions prior to the end of the second following fiscal year.

Composite Score : the DOE composite score reflects the overall financial health of an institution. The score can be anywhere along the scale from negative 1.0 to positive 3.0. If an institution receives a score greater than or equal to 1.5, the institution is considered financially responsible.

Use of Non-GAAP Financial Information

This presentation contains non-GAAP (Generally Accepted Accounting Principles) financial measures, which are intended to supplement, but not substitute for, the most directly comparable GAAP measures. Management chooses to disclose to investors these non-GAAP financial measures because they provide an additional analytical tool to clarify the results from operations and help to identify underlying trends. Additionally, such measures help compare the company's performance on a consistent basis across time periods. Management defines As Reported as actual operating results derived from previously filed annual and quarterly financial information submitted to the Securities and Exchange Commission. Management defines EBITDA as loss before interest expense, interest income, income taxes, depreciation and amortization. Management defines Pro forma as actual operating results derived from previously filed annual and quarterly financial information submitted to the Securities and Exchange Commission excluding unusual and non-recurring transactions such as closed school operations, gain on sale of assets and interest normalization. Management defines interest normalization as adjusting interest expense on debt from prior years using the Company's current credit agreement terms. To obtain a complete understanding of the company's performance, these measures should be examined in connection with revenue, operating loss and net loss, determined in accordance with GAAP, as presented in the financial statements and notes thereto included in the annual and quarterly filings with the Securities and Exchange Commission. Since the items excluded from these measures are significant components in understanding and assessing financial performance under GAAP, these measures should not be considered to be an alternative to revenue, operating loss and net loss as a measure of the company's operating performance. Exclusion of items in the non-GAAP presentation should not be construed as an inference that these items are unusual, infrequent or non-recurring. Other companies, including other companies in the education industry, may calculate non-GAAP financial measures differently than the Company does, limiting their usefulness as a comparative measure across companies. A reconciliation of the historical non-GAAP financial measures to the most directly comparable GAAP measures is included in the following slides.

Financial Statements

Our financial statements reflect the following operational results:

- 1. Adjusted EBITDA** – We define Adjusted EBITDA as EBITDA plus stock compensation expense and adjustments for items not considered part of the company's normal recurring operations
- 2. Adjusted Net Income** – We define Adjusted Net Income as Net Income plus adjustments for items not part of the company's normal recurring operations
- 3. Adjusted Revenue** – We define Adjusted Revenue as revenue excluding the Transitional segment
